

Purple = Character

Green = Action

black = Spoken

red = Voice over or character inner dialog (Not spoken out loud)

(Scene opens 1000 years ago at the last moments of the fall of the Moon Kingdom. Two tall female figures remain amongst ruins near the one in white stands two cats one black one white. The other figures a tall dark figure sporting demonic features about her face. Her flowing dark red hair flows as if it was alive. The figure in white has long flowing white to blond hair and sports two buns on the top.)

Figure In White: (Queen Serenity)

You have lost. Your conquest has failed Beryl.

Queen Beryl:

(Laughing with a dark smirk on her face) You may have release the energy and stopped my forces I have amassed but the Negaverse lives on with me Serenity and in the fight your force have all been destroyed along with my own. You even sacrificed the life of your own daughter and her beloved. Just to stop me. You may have one the day but I will return to destroy you. (Beryl fades in a teleport away)

Black Cat: (Luna)

Queen Serenity ... all the sailors have fallen

Queen Serenity:

(Tears swell up in Serenity's eyes) I know Luna, even before she said it. I knew. What Beryl says is true, I can not sense any one left to battle her forces, and while I may have the power to destroy Beryl I do not have the power or will to stop the Negaverse from spreading.

White Cat: (Artemis)

But this can't be how can there be a hope to destroy them.

Luna:

Artemis, how can you say that...?

Queen Serenity:

Its okay, Luna. I need you two to be strong I need you to guide and train Sailor Moon and the others when the time comes to fight the Negaverse again.

Artemis:

Wait how the Sailors are all dead aren't they.

Queen Serenity:

The Power of the Silver Crystal is strong. I will use its power to revive everyone on earth. But it will take time for the crystal to regain its strength and even then it may not be as strong as it is now ever again. To send everyone I must set the lives to be reborn only the children of the Kingdoms will be able to remain their memories and their powers.

Luna:

But if you do this it will destroy you Queen Serenity.

Queen Serenity:

Yes which is why I ask you take care of them for me. Take care of them. (Serenity holds her hands high lifting the Wand of the Silver Crystal high and light beings to envelope the bodies, and soon Luna and Artemis as well that are placed in sleep chambers.) You two will sleep till the time for the girls to regain their powers comes.

Luna:

Serenity (in whimper)

Artemis:

You can count on us.

Queen Serenity:

I'm sorry to put this on you my child, but it's the only hope for your future and the future of Earth protect them my child. Protect them my princess. (The queen collapses on the ground) How I wish you could have stopped them I'm sorry Raydon. (Serenity looks towards the sun shock hits her face) A ...sur..viv..or? I...am .. sorry child ...sleep now ... and help my daughter... help her defend this world.

(Hours Earlier Near the Planet Mercury stands a starship from the Moon Kingdom. But all is not well on board. Sirens are going off yet the hall of the ship remains silent save for one staggering figure of a young woman. The woman sports a military uniform with a regulation blaster on her hip. Her hair is a messy medium cut of brown. Normally she would take greater energy to run towards danger, but her broken leg and wounds about her body cause her dragging herself down the hall.)

Woman: (Andromita)

Damn it. DAMN IT. (Bashes her hand against the wall in a metallic thud) How...How could I let that alien get the best of me. Got to get to Father and warn him.

(She staggers as Voice are heard ahead)

Voice 1: (Raydon)

So your plan was to distract my force from your Queen.

Voice 2: (Geo)

Bravo, I should expect no less from the leader of the Moon Kingdoms Defense Force. Admiral Raydon. It's just as you guessed, Beryl is to serve as the carrier of the Negaverse, we gathered strength by corrupting the Earth Kingdom's Forces to our side even turn many into Monsters to do our bidding. While I distracted the frontal forces she would use the love the princess has for the Earth Prince as a means to attack the defenseless Moon Kingdom. And now you and what remains of your pathetic forces are too injured and too far to come aid the Kingdom in their hour of need.

Raydon:

I will not let you win here, as Queen Serenity will stop your forces there as well. Geo, you will pay for your crimes against the Kingdoms of this realm.

(The girl staggers into the room to see both men facing off with guns facing each other, none of the other figures in the room look to be living. One man a Military officer in a proper uniform his long gray hair sweeps a face that has started to show the wrinkles of time and many battles. The other man stands in a grey uniform and black hair bushed along the head promoting the elongated Elvin ears that line his face which is brightened with a dark and evil smile.)

Woman: (Andromita)

Fa...ther sorry I ..I tried to stop him.

Raydon:

(The old officer turns around to face the girl and in shock) Andromita

(Gun Shot rings out, hitting Raydon in the chest)

Andromita:

FATHER....No he .. this .. this can't be

Geo:

My, my, how mistaken I was thinking you were dead from the trashing I gave you earlier girl. Oh well I think I will let you live for awhile longer, long enough to watch your father breath his last breath.

Andromita:

Bastard. (Andromita pulls her gun but her wounds cause her to collapse to the ground)

Raydon:

Daug..hter...

Geo:

What a touching scene it makes me sick. I think I should head off and see how Beryl does in the conquest. Perhaps I can get there in time for the banquet in my own honor. (Fades in a teleport laughing)

Andromita:

Father.. you have to pull through.... I will do... what I can... to get us back and we can stop... them

(Andromita looks in shock as Raydon Stands to his feet and walks to her)

Andromita:

Father...Stop.. your wounds are too close to your vitals... If you move too much...

Raydon:

Computer, Request to set officer First Class Andromita in evac.

Andromita:

Father don't worry about me I will be alright its you I

Raydon:

A captain goes down with the ship my child. I am too hurt to go on. Computer after setting Andromita in evac launch the pod back home and set the self destruct.

Andromita:

NO FATHER YOU CAN'T.

Computer:

Confirmed ...

(A light lets out around Andromita and she is floated away to a small doorway. As Raydon falls to the ground blood pouring from his wound)

Raydon:

Good bye my child. Take my lessons to heart and show the courage your mother granted you. I will be watching over you my sweet Adni.

Andromita:

COMPUTER CANCEL ORDER..

Computer:

Request denied .. over ruled by order of acting captain

Andromita:

Save my father, save the Captain

Computer:

Request denied ... captain Raydon is beyond help that current systems can provide.

(Doors Shut to the evacuation pod)

Andromita:

(In Tears whimpering) Computer open doors ... halt evac.. SAVE MY FATHER.

Computer:

Access denied ... Order from active captain... Evac Launch.....

Andromita:

NOOOOOooooo

(Then scene passes as the pod launches and moments later the ship explodes into piece.
Time passes as a weak Andromita weeps)

Andromita:

I will find you Geo and I will destroy you.

(A new light envelopes, an unconscious Andromita it's the light of the Silver Crystal placing her to in a sleep chamber similar to the ones that surrounded Luna and Artemis, the scene fades)

(The Scene opens with in the bedroom of a young girl who seems to be fighting the light of morning to hitting her face by burying her face in her pillow. Her alarm has been going off for some time as well while a familiar looking cat sits eating from a bowl of food a slight irritation in its face while the girl tries hard to continue her nights sleep)

Luna:

(To Self) Man if she spent half her energy fighting the enemy for the world as she does the alarm in the morning then I'd be less worried about our future.

(A Woman opens a door to the girl's bedroom. The Woman is in her late 30's yet her dress looks more like something a mother from 50's television would wear. Anger over the girl's refusal to wake to the new day arises in the woman to see to putting an end to this battle)

Woman: (Ikuko Tsukino, aka Mom)

SERENA ... you where suppose to be up 20 minutes ago.

Serena:

Mmmm what a lovely chocolate parfait you brought me Darien. What a wonderful boyfriend ... what you want to marry me..

Luna:

(to self) Sigh it's the same every morning, you'd think since become a high school student she would have matured a little.

Woman: (Mom)

(Pulling a young 16 year old girl with long pigtails in and two buns of blond hair out from the bed) UP ... NOW... SCHOOL

Serena:

(Still asleep holding her pillow in a hug) Hehehehe I would be proud to be your wife ahh..(falls to the ground knocking her head waking up) OUCH.. wait what the ...MOM whaaaaa.

Mom:

SERENA ... you are almost an adult you should be able to get your self up and quite crying you didn't hurt your self that bad.

Serena:

(Sniffle) your cruel.

Mom:

No being cruel would be taking your video games from you cause you failed another test and you have 10 minutes to catch your bus or you will be late AGAIN

Serena:

CRAP ... and we have to be ready for that major test in Math.

Mom:

A test I'm sure you studied for with Amy right.

Serena:

(Shock of being caught in a lie hits her face as she throws on her school uniform) Hehehe well I was with Amy for a...while.

Mom:

Fail and be Punished Serena that's the rule.

Serena:

(Still putting her shoes on) Yeah I hear yah. I'm off. (runs out the door)

Mom:

SERENA (holds up a school bag)

Serena:

Hehehe... sorry forgot it (grabs the bag and head out with Luna in tow)

(Outside a the house)

Luna:

Honestly Serena how on earth can you lie to your mom like that, you where out all night with Mina and Lita at the Arcade.

Serena:

(With mouth full of buttered toast) I would have been with Darien if he didn't have to work last night.

Luna:

Yeah right you would have studied with him then if he didn't.

Serena:

Of course right after the smooching and maybe watching a movie together, and...

Luna:

And that's a no. Seriously don't you have any goals outside of school you want.

Serena:

Goals why should I have goals, I mean I already know I will become queen one day and marry Darien, plus till then I still have my duties as Sailor Moon.

Luna:

You haven't faced an enemy as Sailor Moon in months

Serena:

Yeah good riddance I say. I can only hope it keeps this quite.

Luna:

The enemy could attack at any time I taught you better than that.

Serena:

Yeah, yeah. Oh look it's the bus. HOLD ON I WANT ON. Later Luna!

Luna:

That girl! All I can say is thank goodness we have all the sailors because if it was just her our world might as well surrender to the enemy.

(The scene changes to down town scene outside a coffee house where a large scale TV displays the 24 hour news network)

TV:

Scientists are baffled at the latest discovery of a metallic asteroid discovered in the Arctic just a few days ago, early images show what is believed to be some sort of alien writing. If it is then they say it may just be proof of alien life exists somewhere out in space. Here is hoping that if they do find life it will be vastly more intelligent than here on earth eh folks. Coming up later we head to Sayrun Calvin at convention in Tokyo where many are lining up to see the latest in robot designs for military and civilian use. Right after a word from our sponsors, and keep tuned into your home of the rising sun JSNN for all your news and info here in Japan.

(A woman steps out from the shop with an apron staring at a bruised and bandaged Andromita staring at the screen)

Woman: (Waitress)

Hey Lady the boss says you either need to come in and order something or move on, your scaring the customers staring at the TV. (Andromita turns and gives the girl a cold stare, the girl sees Andromita has a gun and stands in shock) Whoa sorry if I upset you look. Here take my tips its not much but just don't shoot me okay. (The waitress tosses a few buck at Andromita who lets the money bounce off her and just stares at it. The waitress runs inside. As Andromita picks up the money.)

Andromita:

Where am I? What is Japan? This doesn't look like the Moon Kingdom or the Earth Kingdom.

(Screaming is heard in the shop and not too longer sirens are heard in the distance.)

Andromita:

Computer, do your respond.....

(Andromita's armllet begins to glow, a screen pops up out of no where, and more screams are heard inside the shop along with a small child shouting they want one at the image of the screens appearance. Words appear on the screen, Data storage low survivalist mood needed to access data, seek suitable parts for salvage.)

Andromita:

Well I guess your no use I need to find some parts for you to be any decent use I guess, (looking at the TV again, more screaming inside) Perhaps this place they talked about the military could help. (Looks herself over and then at the cowering people inside the shop.) I guess I need to find a suitable disguise first. (She runs off down the road moments later a team of police officers arrive to question the shops inhabitants. The scene changes to Juuban High as Serena arrives in her classroom where the long beautiful blond form, of Mina, and the intimidating form of Lita, are set fully in conversation. While the mousy Amy sits quietly reading a college course text book on medicine. The classes teacher has yet to arrive to Serena's spying eye and the fact that Lita and Mina are talking is a sign its not a joke on her part.)

Mina:

Wow Serena on time for a change.

Lita:

And with that math test set for today, I'm impressed.

Serena:

Yeah totally I should be able to knock this one out the park.

(A cough is sounded from behind her. She turns to see the rough frame of the classes Home room teacher and math teacher, A stout man in his late 40's that often shows signs of his bachelor life wearing on his gruff exterior)

Teacher:

Good to hear Ms. Tsukino that your ready for your test this time. So I should expect a better result then last time.

Serena:

Uh yeah well ...uh maybe we shouldn't get our hopes up. Mr. Yamazaki

(Mina and Lita laugh)

Mr. Yamazaki:

I'd be careful on what you're laughing about Ms. Aino your not much better then Ms. Tsukino here. I'm sure we will be having our usual make up tests this Saturday with you two.

(Both Serena and Mina sigh in acceptance, while Lita and even Amy giggle at the situation)

Mr. Yamazaki:

Now class as Ms. Tsukino pointed out we have a test, but I don't want to seem to cruel despite the name some may have given me. (Serena takes her Seat behind Mina and in front of Lita.)

Mina:

(whispers) You mean Goblin king Yamazaki.

Mr. Yamazaki:

Yes Ms. Aino that one. (Mina straightens up in a shocked yelp and Serena joins in as a reflex) But I have given you all ample warning and seeing as its still homeroom I suggest you take the next few minutes reviewing the material. Some may want to study a tad harder. I will be back in a few minutes, till then Ms. Mizuno and Mr. Umino try to keep the class in order and grant aid to those failing classmates will you. (Mr. Yamazaki grumbles as he leaves and shuts the door. As soon as the door closes the students are back to the way they where before he entered.)

Serena:

Man you lucked out seriously there Mina.

Mina:

I swear I would fight thousands of monsters before getting that glare from the Goblin king.

Lita:

Speaking of monsters don't you guys think its odd we haven't seen any recently. I mean even when there isn't some big bag power in control often some monsters still roam around causing trouble.

Amy:

Lita, try not to distract Mina and Serena from study time.

Serena:

AMY! Why are you being so cold?

Amy:

When you two skipped out early on study night last night to hit the arcade. I mean don't you two care about your futures.

Mina:

Hey I'm gonna be a pop star no need to study math when you can draw a crowd like me.

Lita:

Draw a crowd? Since when?

Mina:

Hey I can't help it if my talents haven't been discovered yet.

Serena:

Yeah and I'm gonna be a bride.

Amy:

Yes and your boyfriend asked me to make sure you graduate high school before he's 40.

(Lita laughs at Amy's statement)

Amy:

And I also promised both your parents to help you pass this test and I don't want to look bad if you both get the worst grades in the history of the school again.

Mina:

Yeah it be hard to top our scores of last time I mean Serena actually scored single digits.

Serena:

Hey you only got 3 points more then me Mina.

Mina:

Still better then you.

Amy:

Yes, Yes you both are equally bad at Math now Study!

Serena and Mina:

(In a low broken will tone) Yes Ms. Mizuno

(The two sigh and resign to pulling out text books to study, as the scene changes to the exterior of a home where a woman dress in a business suit holds in to the dwelling.)

Woman: (Business Woman)

Now sweetie don't forget the laundry before too late.

(Andromita hops the wall over the house walking stealthy to the cloths flapping on the line.)

Man inside house:

(stout and strong response) Of course dear you can count on me.

(Moyria grabs a shirt and pants and pair of underwear)

Woman:

Good See you when I get home from work later.

(Andromita dashes over the wall and ducks into a shadowy corner to change. Form her damaged uniform into the miss mash of cloths the pants are a bit wide and short she uses her uniforms belt to resolve this issue, the bra is tight and has her nearly pushing out and the shirt barely covers that evidence as much of her mid-drift is exposed.)

Andromita:

This world's clothing is weird. I need better attire or will face exposure to the elements like this. Still I guess my Uniform boots will be fine for now but I need a place I can put these and the blaster. (Andromita looks around and spies a discarded Book bag, inside she finds a ball cap and sweat coat, she throws the two on and tosses her own outfit and gun into the bag) Well this will have to do for now. Now to seek out this Military place the picture box spoke of.

(Scene changes back to Juuben High it is now Lunch time and the four girls are on the roof of the school eating lunch Serena has already eaten most of hers and is eyeing some of the food Lita has with drooling expectation)

Lita:

Seriously you can't still be hungry

Amy:

Of course she is. She ate so fast the food has yet to reach her stomach.

Serena:

But your lunch is a thousand times better, Lita!

Lita:

Well its good to hear but I though you where going to start the year making your own lunches.

Serena:

(As she inhales the last of her own lunch) I was but then I keep not making it so Mom is back at making it for me. (Gives Lita a pouted Eyes wide face)

Lita:

(Sigh) here have the rest

Serena:

Thank you so much, Lita. All those questions on the test burned all the energy I had.

Mina:

So what is everyone up to after classes.

Serena:

I want to go see Darien.

Amy:

You shouldn't bother him at work, he is just a intern at that TV Studio.

Mina:

I'm with you Serena lets go to the studio. (To self) maybe I can get a producer to discover me there.

Lita:

You realize Mina the only attention you will get at that studio is bad attention it's a news station.

Mina:

Hey they have entertainment reports.

Serena:

I wasn't going to the studio to meet him. He is on location today. At some big expo in town. Covering some giant robot mecha thingy that I'm sure has mountains of anime nerds hanging about.

Amy:

It's the Eastern Robotics Expo, you mean. It's to display the latest in robotics that aid in disaster relief and for military use. Not an anime convention. Though it would be interesting to look into, I guess I have some free time to check it out.

Serena:

(Looking up from eating Lita's lunch) Wow we have Amy's approval. That's three.

Lita:

I have nothing better and it sounds kind of cool count me in.

Mina:

Should we text Rei and see if she would join us. (Already pulling out her cell phone)

Lita:

Won't matter, she is too busy as usual. Ever since she has taken on more responsibilities at the temple she has been too busy to go on many outings with us.

Mina:

Oh yeah cause she's teaching those classes at the temple now.

Serena:

(Taking a break from eating Lita's lunch) Rei is teaching classes?

Lita:

She is teaching classes on archery there. Which is good cause her grandfather is a horrible choice to teach them with any kind of class.

Mina:

That's right your helping her on weekends aren't you.

Lita:

Yeah well teach some martial arts but I mainly use it to try to keep up a good workout and plus it helps bring in some extra spending money.

Serena:

(Pulls out her cell phone and starts texting) I'll let Darien know the four of us will drop by after class. So he can get us tickets.

(the scene changes to outside the expo, as Darien's dress in a JSNN t-shirt one hand holding a bag of food when his cell phone beeps he looks at it smiles and responds)

Darien:

(to self) No problem I'll have passes for you all now study hard Serena

(A woman calls out to Darien)

Woman: (Sayrun Calvin)

Hey lover boy, you get my sandwich like I asked.

Darien:

Yes Ms. Calvin here you go. I have Mr. Taka's lunch here as well.

(A 30 something female in heavy makeup and slick attire reaches out to grab a wrapped sandwich her short cut red hair carries a take me seriously attitude while her outfit shows a great sense of business sexiness about it. Soon after a heavysset man in his 40's poorly groomed wearing JSNN uniform reaches out to grab a small bag of stuff as well)

Taka:

Got to take mine on the go.

Sayrun:

Go! We are set to be here all day reporting live.

Taka:

Sorry but my wife just called the kid is sick and needs to be taken to the hospital. I have to skip out on you. Darien can handle the camera I'm sure.

Darien:

I have to work the signal array from the van.

Sayrun:

I need a camera man to shoot this damn grease pit. If I don't get all these done it will be my ass on the line with Mr. Reyhard.

Taka:

Sorry but it's a family emergency. I already called the boss and he gave me the go ahead.

Sayrun:

How do they expect me to work like this!

(The rant of Sayrun is cut short as yelling of a young woman at a security guard near by drowns her out)

Andromita:

WHAT DO YOU MEAN I CAN'T GO INSIDE!

Security:

Entry requires the purchase of a ticket, miss you can enter when you bought one.

Andromita:

Purchase a ticket with what?

Security:

Seriously lady you don't look like the crazy type, you use money to buy a ticket, Once you have said ticket you then may enter.

Andromita:

I know nothing of this so called money.

(Sayrun laughs while Darien walks up)

Darien:

Excuses me miss, but if you would you could help my boss over here for some time we could get you in and you can even get some money for it.

Andromita:

What you can, I would be very pleased to aid you so I may procure access thank you at least someone is being helpful.

Security:

What ever miss. No skin off my back.

Darien:

There you go boss, I have your replacement camera person.

Sayrun:

Surely you jest. Oh well don't look a gift horse in the mouth I guess Taka can you hold on a few minutes and show the girl how to operate and shoot the camera before you go.

Taka:

I guess a quick tutorial could be done.

Sayrun:

Hey girl what is your name.

Andromita:

An....A.. (Andromita reflex on her training with her father, she knows she must build an alias to hide from possible threats. She thinks back and recalls two names she saw earlier in the day, the jacket she found bore the name Moyria on the label and in her time watching the TV she saw a report on a foreigner man named Gatent.) Moyria Andi Gatent

Sayrun:

Andi guess somebody's father wanted a boy, I see.

Moyria:

Uh yeah I guess he did (reflects on the fact that she was raised in a boyish way by her father)

Taka:

Okay Moyria, let me show you the basics quickly.

(Moyria eyes the device that Taka is holding in his hands and a smile hits her face. The scene fades to later that afternoon as The girls arrive and knock on the News van.)

Serena:

Knock, Knock Sweetie.

Darien:

Serena, it's great to see you.

Serena:

I brought the crew with me.

(Darien begins to pull out passes but holds on giving it to Serena)

Darien:

I got these for the gang but first how did the test go.

(Serena has a blank look on her face)

Amy:

Well things should have improved from the last one, at least.

Serena:

Yeah absolutely, I'm sure it's possible I scored better.

Darien:

Well we will have a study session over the weekend, while Renee is out.

Serena:

How is it that a brat gets more time with you than, me.

Darien:

Serena, she is our daughter.

Lita:

You wouldn't know it if you saw the two of them together.

Mina:

Yeah, Renee is nothing like Serena. Hard to believe you actually are her mother.

Serena:

I'm not her mother yet. And the twerp is showing me up at home with her grades.

Darien:

(Finally handing over the passes) Okay well you all go on ahead I have to finish up a report in a minute, and we are trying to teach a new girl how to use the camera properly. So far she's doing good.

Serena:

Mr. Taka isn't running the camera.

Darien:

Chill Serena, it's just a girl that's helping out for a few bucks you have nothing to worry about.

Serena:

You say that and each time someone shows up to take my Darien away.

Darien:

I will always be yours Serena. (Darien kisses her on the cheek and Serena goes red and limp)

Lita:

Come on Love Bird lets go check out the robots.

Mina:

I want to try and get on camera.

(The group walks off dragging Serena by the arms. As they walk in a man with dark hair in a military uniform walks out and proceeds to a dark alleyway nearby. The man removes his hat to reveal his elongated ears, and cracks a devilish smile. The man is Geo the very man who took Raydon's life 1000 years ago)

Geo:

Quite fitting devices perfect for the reviving of the grand army of the Negaverse. Droid come forth.

(A computerized orb fades into view before Geo)

Droid:

I am here master.

Geo:

I need you to gather the weapons on display inside, and while your at it grab some energy for the Negaverse.

Droid:

Yes My Lord. (The droid transforms into a copy of Geo as he is dressed, minus the ears)

Geo:

Do not fail in your actions, or you will be melted for scrap.

Droid:

Yes my lord.

(Geo Fades in a teleport while Droid places the hat on the head and walk back into the Expo receiving a military salute as he enters. The scene changes to Sayrun wrapping up a report. Mina, Lita and Serena are seen purposely walking behind the camera smiling at it.)

Sayrun:

...if you can say one thing about the expo is, it's truly a doorway to the future. For JSNN news this is Sayrun Calvin reporting. (Sayrun pauses for 10 seconds) There much better this time Moyria. You're getting good at this. After all this is over I might be able to pass a word to my bosses to keep you on if you like.

Moyria:

Thanks Ms. Calvin I just might take you on that offer.

Sayrun:

Well we have 30 before we need to report again. Take a break I have some business with some in-house viewers. (the statement has Moyria puzzled but she takes the camera and walks off to a quite corner of the expo. Sayrun turns and faces Serena.) Honestly is there a time you don't drop in on your boyfriend Serena.

Serena:

(Looking embarrassed while Mina and Lita pretend to not be part of Serena's grouping)
Caught us behind you huh? Ms. Calvin.

Sayrun:

Look I have no problem on you being all over my intern just try not to harm my news reports while you chase him okay.

Serena:

Yes mum.

Sayrun:

Do me a favor, Serena don't call me Mum. It makes me seam old.

(Mina starts to open her mouth but Lina grabs her by it and drags her away)

Serena:

Yeah sorry

Sayrun:

Now if you where to want to follow in my footsteps I would be happy to have you around Serena.

(The scene changes to a different corner of the expo where Moyria has taken to the shadows to activate her armlet connection to the computer. The image raise again only to display the words Parts needed to access survival mood, need Transceiver, Receiver, Power Supply, recharge adapter and Data storage containment)

Moyria:

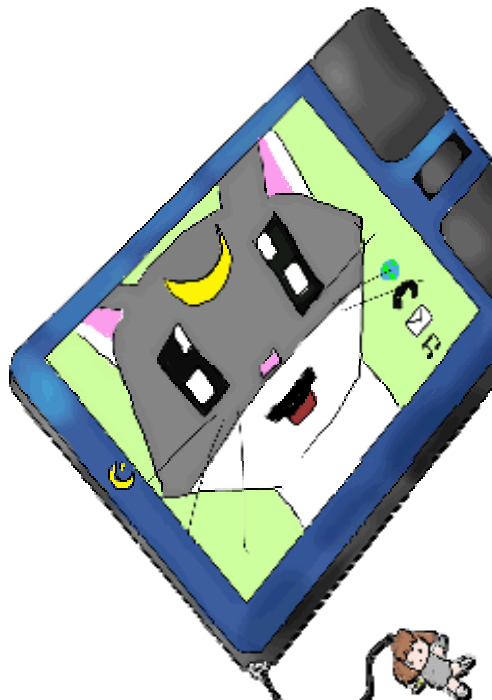

(out loud quietly to self) Okay I think I have the transceiver her, will this work for now to access info.

(Words appear. Access denied, critically need Receiver , Power Supply and Data storage. Suggested material that matches all three devices needed detected near by. Moyria looks around and spies a Smart phone that someone left abandoned. She grabs it.)

Moyria:

(out loud quietly to self) Do you mean this device?

(Words appeared Confirmed. Place object on armlet for data transfer. Moyria does as the screen states and second later the phone has two square eyes appear on its screen, and it speaks at her)

Cell phone: (Circuit)

Welcome Mistress I am survival unit you have requested. Unit Designation is Circuit.
How may assist you in your needs today.

Moyria:

I want a report on my location and to call the Moon Kingdom for help.

Circuit:

I'm sorry but your request can't be fully done as asked

Moyria:

What WHY?

(A few heads turn to face her, She smiles a dumb smile and they go back to ignoring her)

Circuit:

Designation for call does not exist.

Moyria:

What do you mean I was just there two weeks ago.

Circuit:

Error you where there 1003 years, 43 weeks, 3 days, 10 hours, 35 minutes and 28 seconds ago.

Moyria:

A THOUSAND YEARS! (gains attention again and again smiles and the attention fades)

Circuit:

And 3 years, 43 weeks, 3 days, 10 hours, 36 minutes and 14 seconds. Yes

Moyria:

Where am I?

Circuit:

At the Eastern Robotics Expo, in the Shibuya District of Tokyo, Japan, Earth. You would not have heard it called in your time this area had yet to be claimed with the exception of a few tribes, it later was named Edo in the 12th century then in the 19th century became Tokyo.

Moyria:

So this place is Earth! But why am I hear what happened to the Moon Kingdom? Am I the only one left?

Circuit:

Current records I have been able to access has the destruction of the Moon Kingdom at some point around the time of the destruction of the ship. Survivors currently stand at 9 all female members of the royal court, one male of earth kingdom, 2 felines and a unknown signal. Other survivors are detected but seem unaware of the Moon Kingdom and hold no known power. Current head of power is Sailor Moon, aka Princess Serenity.

Moyria:

(A slight glint of hope hits her face) The princess survived, good but how.

Circuit:

Yes current records confirmed all members are female of the court and the acting princesses of the surrounding planets. With the exception of the unknown source, exact source material is not available on how you and the court survived processing estimates.

Moyria:

It's such a shock that we are lost in this world and that the Negaverse could do this pushing us to the future.

Circuit:

Error in your statement there, mistress. Calculations have no indication that the Negaverse sent you all here. All calculations point to actions taken by the carrier of the Silver Crystal places all subjects in a hibernation mood in an action of retreat.

Moyria:

Retreat, why did they retreat from the battle. Tell me who currently holds the crystal?

Circuit:

The signal is faint but the power of the crystal lies with the Princess.

Moyria:

(Collapsing in shock to the floor) She did this. She ran. She abandoned all of the kingdom. She abandoned me, she abandoned father, and She betrayed us all. I will not let this stand I will regain my fathers honor. (Anger and rage hits her face as she grits her teeth)

Circuit:

Pardon Mistress

Moyria:

Circuit my mission is clear I will kill Sailor Moon.

Circuit:

Confirmed, now if you excuse me the power source is low I will power down at this time. (Circuit powers down just as a crash is made at the opposite end of the Expo and a scream is let out. Cut to Serena and the girls, they all move quickly to look on at a man who has lighting firing out of his hand as it brings a robot to life attacking people.)

Amy:

Guys it's a monster attack

Serena:

Oh man guess the peace and quite was too much to ask for.

(The girls slide in out of view)

Amy:

Mercury Crystal Power, Makeup

Mina:

Venus Crystal Power, Makeup

Lita:

Jupiter Crystal Power, Makeup

Serena:

Moon Eternal, Makeup

(The girls proceed to go through their transformations and quickly leap from the shadows to confront on their new foe they take their standard place to appear in a dramatic fashion)

Droid:

MWAHAHHAA, gather my puppets and grant your power to the Negaverse.

Sailor Moon:

The Negaverse again did we not beat you guys enough like 2 years ago.

Sailor Jupiter:

No way, we defeated Beryl.

Droid:

Well well well, the hero of love and justice Sailor Moon.

Sailor Moon:

Hey I didn't even get to do my introduction yet.

Sailor Venus:

Man this guy is rude

Sailor Mercury:

That guy is controlling the robots guys we have to take him out to stop them.

Sailor Moon:

Seriously are we not doing any of this like we always do. (Droid shoots a bolt at Sailor Moon which she quickly leaps out of the path of) Guess not Mr. Rude Lighting pants.

Sailor Jupiter:

Sailor Moon leave the robots to us, you deal with the guy tossing lighting.

Sailor Moon:

Seriously Lighting is your thing Jupiter.

(Moyria moves forward and sees Sailor Moon. Sayrun runs up to Moyria)

Sayrun:

This is gold in new get some shots of the fight... (Moyria does as asked when I bolt strikes near the two of them, She pushes Sayrun out of the path but the camera is struck exploding in sparks.) Thanks for the save. Is the camera okay

Moyria:

(Looks at the smoking heap that was the camera) Um I don't think so.

Sayrun :

Never mind I have a replacement in the van, but I guess need should find somewhere safe huh.

Moyria:

Right behind you.

(Sayrun takes running off Moyria follows for a brief moment but ducks into a shadowy area and activates Circuit.)

Circuit:

I am sorry Mistress but my batteries are low...

Moyria:

You have access to my supplies in the bag back in the van right?

Circuit:

Yes Mistress, I can transfer it to you simply press your armlet and call out your computer pass code.

(Moyria presses her armlet)

Moyria:

Stardust Illumination Activate.

(Light surrounds Moyria and the cloths she was wearing fades and is replaced with a fully repaired uniform she wore originally)

Circuit:

Data Transfer ... Complete ... systems powering down for power requirements.

(Andromita heads towards the battle as a robot goes flying by from Jupiter tossing it off Mercury. Andromita grabs her blaster and shoots missing just barely Sailor Moon and Droid but gathering the attention of all.)

Sailor Moon:

(after leaping back) Another enemy?

Sailor Venus:

(Tangled hands in wires of a robot she is bouncing like a yo-yo) Who is that?

Sailor Jupiter:

(Aiding Mercury who is trying to get a reading on her computer) It's not Tuxedo mask, that's for sure.

Droid:

Target Identified as Andromita. (suddenly is hit with a blast from Andromita's gun sent flying back. Its illusion is dropped to reveal its true form.)

Andromita:

Damn I was hoping it was Geo, but then his time will come but for now I will just deal with the traitor. (Andromita raises her gun directly at Sailor Moon)

Sailor Moon:

Traitor? Who are you calling a traitor?

Andromita:

Sailor Moon for showing cowardice and betraying the people of the Moon Kingdom, you will pay for your betrayal with your life. Good bye Sailor Moon.

(TO BE CONTINUED...)

Preview of next episode:

Sailor Moon:

I'm a traitor. How this new girl is nuts, who is this girl? Will I escape the her sights. What plans does the return of the Negaverse want with robots. More dramatically did I pass that Math test.

Luna:

Did you?

Sailor Moon:

You will have to turn in next time for answers. Till then see you next time.

Luna:

Of course you would add that to the cliffhanger.

Sailor Moon Says:

Sailor Mercury:

With advancements in technology far too often we just toss away our old computers, cell phones, and other electronic devices.

Circuit:

But tossing these devices can be not only harmful to the environment but harmful to you as well.

Sailor Moon:

Take your old and unwanted electronics to a reputable electronics recycler. There the parts can be repaired or taken apart and reused in new devices. It does the world some good and it keeps us from creating useless waste. Sailor Moon Says.
