

Purple = Character

Green = Action

black = Spoken

red = Voice over or character inner dialog (Not spoken out loud)

(The scene opens inside the tv studio apartment of Darien and Moyria, the two of them are sitting at the kitchens counter drinking coffee as they finish up shooting a scene. They speak their lines in the camera.)

Darien:

Well that's the story for tonight

Moyria:

Tune in Next time.

(The two share a quick on air kiss and holding it till)

Reyhard:

Okay cut ... that's a wrap team. Calvin, Gatent and Chiba we need to discuss some things when I get back.

(Moyria takes a sip of her coffee)

Darien:

Any idea what's this is about Sayrun.

Sayrun:

What makes you think I know?

(Moyria coughs on the coffee in response of Sayrun's answer)

Moyria:

Since when have you not been involved in these things before us?

Darien:

Moyria isn't far off on that Sayrun. You have a tendency to be on the inside of issues before we get wind of it.

Sayrun:

I am heart broken you two. Here I work hard to get you two the best shot a great gig. And you reward me by doubting my honesty. (Both Darien and Moyria don't respond and just stare at Sayrun.) Fine think that way but honestly I have no clue what he wants to talk to us about, here I thought we where doing a great job and all.

(The three of the them perform a unison sigh of disappointment when Reyhard reenters the room and walks over to them.)

Reyhard:

Ah good I hope you all are enjoying how things have been going. What I wanted to talk about an upcoming series of episodes you two will be shooting. We are coming on the Anniversary of the Fukashima earthquake, I want you to cover some stories in that area on the rebuilding efforts and the way life is returning. I also would like to see while you're at it perhaps some coverage of school kids out on the break between school years.

Sayrun:

I will see that their efforts are put to good use.

Reyhard:

No Sayrun, you won't. I need you to return to your previous duties as a reporter. Things are getting hairy around here with the political issues going down and with all these recent attacks. I think Moyria and Darien can handle things by now. Also I have a new guy to lend them a hand with the filming of their segments. But I am leaving their work in their hands now. You two are one good footing with the ratings don't mess it up just do what you have and you should be able to keep a steady flow. Oh and when you come back from the trip we will work out some other ideas.

Darien:

You can't be serious sir, Sayrun has been a great producer for our ....

Sayrun:

Can it Newbie, You two did well but he's right its time you left from under my skirt and put this bit together yourselves. Hopefully this new guy Reyhard hired will be of some help for you.

Reyhard:

Well he came highly recommended by a friend of mine; the young lad is a skilled documentary film maker looking for steady work.

Sayrun:

Because he made documentaries just means he more likely has pissed off any potential talent he can line up.

Reyhard:

True but given his families status they wouldn't dare say no.

Sayrun:

Really you act as if the new guy is royalty.

Reyhard:

Saitou Tech ring a bell Ms. Calvin.

Moyria:

Even I think I heard that name somewhere.

Darien:

Hey they where the ones holding the robotics expo we met you at Moyria.

Sayrun:

So what so rich boy is joining great just what they need some stuck up...?

Reyhard:

Akito is a bit of the black sheep; in fact his father while letting him use the name to gain access refuses to aid his son in anyway. Sort of the concept of throwing the lion into the canyon, Mr. Saitou merely wishes his son to find his own success. Besides he is more around the age of the stars so I figure it be best young blood stick together, it keeps up better and hopefully we won't end up with any more cases like the resort a few weeks ago. (Moyria shies away from the cold stare of Reyhard.) Anyway pack your bags kiddos Akito will be here this afternoon with a news van. Sayrun I will see you later in the office.

(Reyhard walks out of the apartment just as Darien's cell begins to ring a familiar tone of the locket he Princess Serena, he walks over and picks it up.)

Sayrun:

The girlfriend?

(Darien just stares at Sayrun then answers)

Darien:

Hey Serena how goes the break from school.

Moyria:

She has been calling more often guess, she finally forgave him for the kiss at the temple. But something tells me she hasn't been watching the show and she never agrees to come here.

Sayrun:

Has he offered?

Moyria:

Yeah.

Darien: (to Moyria and Sayrun)

Hey guys didn't Reyhard say we needed some students on vacation?

(The two look at each other then nod in a hesitant agreement)

Darien:

Good then I have a plan. (To the phone) Call up the girls all of them I think I can use you all on the show. Yeah we need students and you all should be perfect.

Sayrun:

Well looky there hope the new guy can handle what Darien just unleashed cause he just stuck you all in the middle of a storm, and it looks like you may be the primary target. Got to say kind of glad Reyhard reassigned me to reporter. Enjoy your problem wet-rag. We can go out shopping when you return, oh and I expect a souvenir when you return.

Moyria:

Why do I feel I'm going to need a vacation after this TV vacation?

(The Scene changes to the lab of Spectral, Cen over looks the equipment as Spectral walks in)

**Spectral:**

You may be the polish in Geo's eye at the moment but I wish you would let me know before you enter my lab unannounced.

**Cen:**

I wanted to get a report and see what toys you may have in this playroom of yours.

**Spectral:**

Well I can't say you haven't done me a favor. After all my latest work is due to your convincing Geo to let the witch live and now I get the pleasure of cutting into her to prepare her for her next trip out.

**Cen:**

Is she ready then?

**Spectral:**

Sadly no, I do have a few projects I had focus and I had to go and report a few minutes ago to Geo on my calculations on the next Element.

**Cen:**

And with Iris out that means?

**Spectral:**

You have to fill in for her, given it's a step down from your current mission in a way but then Geo said it was a fitting punishment for you as you failed to kill the mouse. (Spectral tosses her a crystal and a dart full of his monster formula.) These will help on your mission. (Cen tosses back the dart)

**Cen:**

Save your resources there I have a plan but I need someone I can trust to work in the shadows, I also need a way to keep my sisters friend from sending me back this time. On the way in I thought I saw a little project of yours that may work. But I need one other thing.

**Spectral:**

And that is?

Cen:

In our last fight, my sister disarmed me and without a weapon on hand I may find myself at a disadvantage. I was wondering if you had a useful weapon that could help on that end.

Spectral:

Your last weapon was a whip. Good for disarming or tripping a foe but rather lousy to deal with the task on hand as it stood, perhaps I could build you something for your mission but I doubt you will need it.

Cen:

What makes you say that?

Spectral:

The calculations I have for the element, it will appear long out of the area where the Sailors or your sister tend to roam, in the northern half of Japan, and better yet I know exactly which element we are looking at here. The Element of Storms, I calculate that in a few days time the perfect conditions will hit this area for the element to appear.

(Spectral points to the map showing Aomori, The Scene changes to the next day as Serena is outside her house with Luna, Renee and Diana)

Serena:

Look here I said no you can't go with us.

Renee:

But I haven't seen Darien ether and when I called him he said it was a great idea.

Serena:

Look we aren't going to any place that kids will like we are headed north to see the hot springs and the waterfalls of Aomori.

Renee:

Yeah well I want to see Hirosaki Castle and Darien said it was a sure thing as the Cherry Blossoms are starting to appear.

Luna:

Give it up Serena, Darien wanted all the girls what is the problem bringing Renee along.

Serena:

Hey this is my vacation Luna and I don't want to be babysitting it when I can have some alone time with my Darien. (Looks up and down the road) Man where is he?

Luna:

This is a work vacation for him which of course means he will have Moyria with him.

Serena: (growls)

Yeah which is why I need to be focused to keep her away from him?

Luna:

Serena, you can't do that it's their job to work together.

(Serena's phone rings and she quickly answers)

Serena:

AH Darien sweetie we are waiting on you where are you? (Pauses for a moment) What do you mean you sent someone to drive me and the others? Who did you send? (Suddenly the screeching of tires is heard as a van zooms around a turn and squeals to a halt in front of Serena's house.) Who is this maniac, Hey pal watch where you're going ...Huh?

(The window rolls down and Haru and Michiru in the front seat with Amy, Lita, Mina, Rei, Setsuna, Hotaru and Artemis all in the back most pale form Haru's driving)

Haru:

Sorry we were a bit late we got the call at the last minute about the van rental.

Michiru:

Haru isn't use to how it handles yet.

(The reaction of the rest of the passengers shows that they agree very much with Michiru's statement. Serena picks up her phone again)

Serena:

You sent Haru to get us!

Darien:

I had to leave yesterday; we needed to get to Fukushima to do our filming here. I will be here for the next two days surely you and the girls can find something to talk about till we arrive in Hirosaki.

Serena:

But...

Darien: (continues on)

Just figured that Fukushima isn't in the best of shape right now for you all to hang out around here right now! Don't worry we will meet up with you when we finish, so far things are going smoothly and we might even be able to head out sooner.

Serena:

But...

Darien:

Oh Akito is calling for me he must be ready for a new shot got to go I will call you later to see you all got there safe.

Serena:

But...

Darien:

Love you chat later. (Darien hangs up)

Serena:

But ... we where going to vacation together.

Haru:

Hey kiddo you coming? It's a long drive we may to have to stop for the night.

Serena:

Why do I feel it's safe if we just teleported there.

Michiru:

Hey Darien went to great efforts in renting us this van and setting up hotel reservations for us all so we could see the country as we travel.

Serena:

Uh okay I guess then we have no choice.

(Serena is a frightened as she enters the van)

Haru:

Okay everyone ready. Then let's get this trip under way.

(Tires smoke and squeal as the van zooms off and the scene changes, to later in the day at Fukushima as Darien, Moyria and a young scruffy looking man with long blond hair and sunglasses almost permanently stuck to his face putting away equipment in the news van.)

Akito:

Great job guys!

Moyria:

You sure it's not like the last shows we did, it was sort of ...

Darien:

The words I think your about to say Moyria is tame. And yeah we didn't really do any of our usual gimmicks for the show. We even left off the kiss.

Akito:

Yeah well it's a somber subject in this case so we wanted to focus more on the news subject then you two. Its okay though we have a packed set of the norm for you all in Hirosaki as I plan to have you two go on a couple of dates where when pieced together in editing it should come out like you two went on an all day date. (Akito pulls out a folder filled with odd notes and photos of locations) and of course we have the girls on vacation bit to film. Hope their pretty Chiba it would help bring in more viewers I'm sure. Maybe someone with a bit more of a cheerful attitude.

Moyria:

HEY what do you mean by that!

Darien:

Uh well Serena and her friends bring a mixed bag I guess. But you won't be disappointed I think.

Akito:

I don't mean to offend Ms. Gatent it's just your foreign beauty and personality may turn off some viewers looking for more of a traditional Japanese beauty.

Moyria: (Ticked off)

One day with you and part of me longs to be working with Sayrun again. (Moyria goes to toss a bag of equipment in when she sees a bag moving about and grabs it) Uh I got to go freshen up but I haven't finished with you yet Akito. (She stomps off with the bag)

Darien:

Wow never seen her this way? You should watch it I have no idea how she will react and she is former military.

Akito:

Peh military dog should have smelt it on her.

Darien:

Hey lighten up we have to work together and the quicker you two can get along the better for all of us.

Akito:

Yeah yeah.

(The scene switches to a distance away where Moyria comes to a stop and opens the bag which sends several clothing items flying out and a pair of panties comes rising out of the bag, Moyria takes them with her face all red and reveals Circuit.)

Moyria:

I thought I made it clear you where to try and hunt down the next element, what are you doing in my bag.

Circuit:

My apologizes mistress but all calculations point to the next element to be in your direct route so I estimated the best way for me to gain it would be to go into stealth mode and travel with you.

Moyria:

An element! We are headed to an element are you sure!

Circuit:

Eighty seven percent, mistress, the element of the storm is on a course to hit Mt Osore in two days. The element holds control over water and wind and was one your mother used frequently herself was it not.

Moyria: (rubs her armlet and its red stone crystal)

The element of storms that is one we can't let the others get their hands on. Very well can you when you get a chance make sure to line up Akito's schedule for shooting around the time of the element appearing?

Circuit:

I will make it so when you three are in sleep mode.

Moyria:

Good then all that's left is for Akito to live that long before I kill him.

Circuit:

Query Mistress what is it that is causing this frustrations in you with this Akito Saitou person?

Moyria:

He just rubs me the wrong way that's all. Any way I will have my hands full when we get to Aomori but as soon as I have a chance to escape we will take it a go after the element got it.

Circuit:

Yes Mistress, I will now convert back to stealth mood for continued observation.

Moyria:

Yeah well this time try to keep you moving to a minimum while in my bag. By the way I though my bag was full what did you do to lighten it?

**Circuit:**

I removed repetitive and unnecessary items.

**Moyria:** (looking with a scowl)

Such as?

**Circuit:**

You had several items of facial paints, excess amounts of under wear and for some reason in early spring weather you had a few bathing suits.

**Moyria:**

They were there for the hot springs you rotten....

(The scene changes to a hotel room where all the Sailors gathered sitting to a late night meal, Serena had already started to dig in)

**Haru:**

Oh come on guys it wasn't that bad of a drive. And hey we even got here in record time.

(Hotaru is lying on the floor with an ice pack on her head; Mina looks like her spirit is leaving her while the others all look queasy with the exception of Serena who is busy stuffing herself and Michiru who has a calm demeanor about her.)

**Michiru:**

Well it's been awhile since all of us where gathered like this. Shouldn't we discuss issues of a more important nature?

(Everyone but Serena snap to a more focused nature)

**Mina:**

You mean about the Negaverse?

(Michiru nods)

**Rei:**

Setsuna you wouldn't have a clue of any issues with the door of time do you.

**Setsuna:** (Shaking her head no)

I'm afraid not for the most part the door has been closed with the one exception with Serena last fall. What about you any premonitions.

**Rei:**

I have but they are very cloudy, well all but one. And when we picked this place I feared it may come true.

**Lita:**

You had a premonition of this trip Rei?

**Rei:**

Yeah I saw Mt. Osore and then a massive storm hit out of no where. Lighting stuck around us all when suddenly I saw something I hate to even bring up.

**Amy:**

Your premonitions are usually correct the clearer they are so this one must be serious what did you see.

**Rei:** (looks around)

I saw Sailor Moon fall

**Mina:**

So you saw Serena fall she did that three times today.

**Renee:**

Yeah she's a klutz in ether form

(Serena takes a break from eating to smack Renee on the head)

**Rei:**

I don't mean she fell down to the ground, I saw she fell off a cliff, and worse that woman was there and I am almost sure she was the one to cause Sailor Moon to fall.

**Haru:**

That woman I take it you mean Andromita.

Lita:

Oh yeah you two fought how did you do against her.

Haru:

Normally I would not care if I lost a match but she showed me her skill and that was just the start.

Amy:

Yeah she broke some ribs of Tuxedo Mask's a few months back.

Michiru:

Serena you're pretty quite about this. What do you think of Rei's dream?

Serena:

It's wrong.

Luna:

Serena what are you talking about for weeks this woman has made it clear she is out to kill you and yet you doubt she will make good on this when Rei has seen it.

Serena:

She saw it wrong I don't know how to say it guys but Andi is not our enemy.

All the other girls:

Adni!?!

Serena:

I know I haven't said it before but I have a strong feeling she belongs on our side and even can help us out with the elements.

Lita:

Well she did give us the first one didn't she?

Setsuna:

Okay what is the deal with the elements?

Artemis:

That's a good question, as far as we could find out is that the elements are a source of great magical power and once were trusted to a group of magic users called the Magi.

Amy:

There are 12 of them in all.

Mina:

And we have three. The elements of Sky, Passion and some brainy kind, that we got two weeks ago.

Renee:

That girl Andromita has one from Halloween.

Serena:

And the Negaverse has one too I think.

Haru:

That means that five of the elements are already claimed. Leaving seven more elements, but what use are they?

Amy:

We know that the Negaverse is gathering them to infuse a new body for Metalia to house new power beyond Sailor Galixia

Haru:

Reason enough for them not to get the elements.

Luna:

Then why is Andromita collecting them?

Mina:

Well if she is on our side then perhaps to help us like she did with the element of the sky?

Rei:

Then why keep the one from Halloween for herself?

Mina:

Hey Lita didn't she say the element of sky best suited you.

Lita:

She did! Could it be that the elements have some use for those best connected to them?

Setsuna:

Then if what you say is true then let's think about what these elements truly represent.

Lita:

Mine was form during the Dyno exhibit at the college.

Mina:

The others where at the bon fire and in Serena's school bag!

Serena:

There was the one with the tree in the park that the negaverse got and the creepy zombies with the one Andi got.

Amy:

Circuit told me when we went for the element of passion each element links with ether a natural element or a spiritual one.

Michiru:

Then I think it's safe to say we have an element of lighting, fire, and mind. With the other two being plant and what death?

Setsuna:

Reviving the dead is a dark art so I would care to guess it's the spiritual element of darkness. Good reason then why Andromita wouldn't want ether side to have that one.

Luna:

So then Rei you should be best to carry the element of fire.

Artemis:

And Amy you being the smartest should carry the one of mind.

(Serena gets up and walks to the door opens it)

Luna:

Serena where are you going at this hour?

Serena:

I need sometime to think. Guys, I think we said all we could on the matter at hand but I can't shake the image of Rei's premonition out of my head. Don't worry I won't leave the hotel I just need some air.

Luna:

Okay Serena

(She shuts the door behind her and begins to walk down the hall when she spies and the inn keeper carrying a massive load of bedding that soon spills and she goes to help her)

Innkeeper:

Such a nice young girl you are to help me

Serena:

No problem

Innkeeper:

You remind me of a good friend I had in high school. (The old woman's face turn soon from a smile to a frown) What a fool I am, never mind.

Serena:

No what about this friend.

Innkeeper:

Long ago we were good friends, until one day we both met a man and fell in love, sadly for us it was the same man. It started a rift in our relationship, then one day her father passed and the girl grew depressed, I was too angry at her over the guy I loved to comfort her in her hour of need. Then one day I found out that my friend killed herself over her grief, our rivalry was over and all that remained was the loss of our friendship over a man that ended up just leaving me for the next girl. I was blinded by my anger to see the love that was once there. I turned my back on my friend instead of being the friend she came to love and depend on.

Serena:

Yeah I think I know someone like that too.

Innkeeper:

You must not turn your back on your friend no matter what stands in the way. Cause doing the other can only lead to pain for the both of you.

Serena:

I don't know if she even feels the same way, it's been a long time and too many scars have been built on since then, even my friends now doubt she is a friend.

Innkeeper:

You should look into that heart of yours and reach out to your friend to see if she feels the same way. Who knows maybe she is struggling with the same issue.

(The Scene changes to the next day as the news van pulls in at the hotel. Akito is the first to step out and heads in to the hotel, Darien then steps out while Moyria sits talking on her cell.)

Akito:

I'm going to check us in you two get your things unpacked.

(Akito heads in just as Serena, Mina, Lita, Amy, Rei, and Renee walks down the road)

Darien:

Hey you guys made it good to see

Serena:

Yeah no thanks to your choice of chaperone to drive us.

Mina:

Yeah picking Haru to drive us all in a van likely wasn't the best choice, but we got here in one piece.

Renee: (Runs and hugs Darien, he leans over to do the same.)

Darien, did you miss me.

Darien:

I sure did Renee.

Serena:

Of course this vacation would be a thousand times better if it was one person short.

Renee:

Hey I said ... (stops herself when she sees Serena's stern gaze is instead on Moyria.)

Darien:

Hey Serena, calm down Moyria and I are just a team for work.

Serena:

Yeah a team that lives together, and kiss at the end of their segments.

Lita:

Well when you put it like that they do sound more like a couple then you two have been of late.

(Moyria opens the door and steps out looks over at Serena and walks toward the back of the van trying to ignore the gathering gawking at her going about her regular business.)

Darien:

Hey now lets all try and get along okay.

Serena:

Fine.

Darien:

Good to hear the last thing we need is for this to turn into a disaster.

(Haru, Michiru, Setsuna and Hotaru all come walking along the same path as the others now and join them)

Michiru:

It's glad to see we caught up to you guys. We found a get tea shop a few blocks back. (Notices Darien) Oh Darien you're here, good to see you could finally join us.

Haru:

Yeah and congratulations on the job, so they have you working as a reporter.

Darien:

Well as part of a team effort.

Setsuna:

Yeah it's a wonderful segment Haru you really should watch it, your partner is quite a lovely young girl Darien.

Darien:

Yeah you guys should meet her. Hey Moyria come meet the rest of the gang.

(Moyria steps out from behind the holding her bag.)

Moyria:

It's a pleasure to meet... (Her face suddenly turns to a shocked expression but its not one she alone has as the same expression appears on Haru's face as well)

Haru:

You... you're her.

Moyria:

Damn it the girl/guy from the museum.

Michiru:

What you two met before.

Rei:

Yeah you just said you haven't watched the show.

Mina: (Michiru looks upset at the idea)

Maybe a former lover?

Haru: (gritting her teeth)

No this is nothing to joke about, you all know damn well who this girl is. She is Andromita.

All:

What!?!

Moyria:

Damn cover is blown. (Leaps back) Stardust Illumination Activate (Moyria transforms into Andromita, and leaps again into a tree, the bag of hers pops open and Circuit hops out) Circuit the mission has changed we need to head for the element's location now.

Circuit:

Very well mistress, I will cover your escape and upload its location for you.

Serena:

Wait Moy...Andi stop.

Andromita:

Serena, you you're her aren't you. (Begins to reach for her blaster but hesitates) No I have my current mission follow me and I won't be merciful to any of you. (She leaps off fading into the distance while a strange set of sparks shoot out of Circuit.)

Circuit:

I am sorry but my orders for the mission at hand are to see no one but mistress, gain this element.

Amy:

Circuit do you know who we are?

(Darien bashes his hand on the side of the news van)

Darien:

Damn it I've been such a blind fool, all this time we were looking for her and she was right there at my side.

Haru:

I don't know about you all but no tin can cat is stopping me from going in for round two against her.

Circuit:

I am well equip for crowd control Uranus. My arsenal is designed for such matters.

Amy:

Circuit we have talked before, can you at least tell us where she is going?

Circuit:

Negative Mercury.

Rei:

I know where she's going. We all do.

Mina:

That's right your premonition of Mt. Osore.

Lita:

But if we go then, Serena...

Haru:

I'm going who's with me.

(Rie, Lita, Mina, Michiru, Setsuna all step forward, but soon find Serena stands blocking them from moving forward.)

Serena:

No, Rei your premonition was that we all go and I will fall then we won't let that happen. None of you are to follow her.

Mina:

So you're just going to let her get away.

Serena:

We know who she is now, and she knows who we are. I won't let her just have the element but you all can not go unless you want Rei's premonition to come true. Watch from a distance that's fine. But I am through trying to reason and argue with Andi, I will face her alone.

Darien:

No Serena, you and I will face her.

Serena:

No Darien, she hurt you the most here I don't even want you to leave the hotel. (Tears well up in her eyes) And if what Rei saw is true then I don't want you to see what will happen. Moon Royal Crisis Activation. (Serena transforms into Sailor Moon) Please if you care for me please stay out of this battle guys all of you. (She runs off after Andormita, Circuit lets out a blast greatly missing her. The others start to react against him but he deactivates his weapon)

Circuit:

I must disobey you mistress, I can not bring harm to the princess.

(A small crowd begins to form after the blast, even Akito comes running out to see the source of the noise)

Akito:

What was that Darien?

(Darien ignores Akito and hops into the driver's seat of the van.)

Darien:

Girls get in. (the girls nod and all load into the van tightly Amy carries Circuit into the van)

Akito:

Hold it where are you going? Who are these girls Darien?

(Darien holds out his hand)

Darien: (Sternly)

Akito the keys to the van hand them over.

Akito:

Not till you tell me what's going on here. Where is Moyria?

(Grabbing Akito by the shirt)

Darien:

I don't have time, the keys.

Akito: (hands over the keys)

Fine but what ever this is about not a scratch on the van and get it on film if what ever it is may be a story.

(Darien starts the van with a roar and rolls off. The Scene changes to a rough mountain edge as Andromita is dashing along it suddenly a blast hits the ground causing her to lose her footing and go sliding down to the ground.)

Andromita:

A trap? How could they, no not the Sailors. Damn she's her too. As if this day couldn't get worse. (Regaining her footing Andromita starts to make her way to the site but stops to turn and face the one following her) I warned you about following me. (reaches for her blaster and shoots but Sailor Moon dodges the shot effectively)

Moon:

This needs to stop Andi, no more of this.

Andromita:

Andi? You lost the right to call me that when you betrayed the kingdom princess.

Moon:

I didn't betray it why wont you listen to me I am not the enemy here.

(Soon another blast occurs and the two leap to avoid it, both look up to a rocky ledge near by and see Cen with floating orb like thing Next to her.)

Moon:

Who are you?

Moyria:

Princess you remember my sister Cen.

Moon:

Your sister. So she is working with you?

Cen:

No I'm working for a different party, one that will be more than happy to see the both of you dead.

Andromita:

She is with the Negaverse now.

Moon:

That thing next to her!

Andromita:

Yeah it's like the one you faced when we met again at the robotics expo. She also has another kind of weapon she has deployed around here.

Cen:

Keen eye sister, Yes indeed there are other weapons trained on you two right now.

Adromita:

A robotic sniper if I'd care to guess.

Cen:

True, it doesn't matter if you know it's around, if you can't find it then it most likely will kill you before you do. But alas I so want that pleasure myself.

(Cen pulls out a strange metal rod and lashes it out as a whip that slashes Andromita across the side then retracts to its form)

Moon:

Your sister's why are you trying to kill each other.

Cen:

We're adopted, well I am. And father never did care for me no cause he abandoned me and went to live his life with his real daughter and to be with the woman he truly loved.

Moon:

I'm sure they didn't abandon you.

Andromita:

Stay out of this princess. Your actions are just as bad as Cen's I can not let either of you have the element.

Cen:

Of course not cause it what would mommy dearest ever think of it Andi your pride is as always strong sister. The very same pride that caused mommy to suffer at the hands of Queen Metalia.

Andromita:

Shut up (Shoots a full volley of shots at Cen but the orb moves in front and creates an energy shield protecting her.)

Cen:

What a lovely device Spectral made, last time we faced you showed me how linked the tech Geo was using was to our own, given that the Negaverse gained it by conquering earths forces first I figured if you could stop me with that technology then the same can be said of your little weapon there. (Cen lashes her weapon again at Andromita grabbing the blaster form its owners hand and sliding it near to herself) Such toys are really unbecoming of you sister. (Cen stomps on the blaster smashing it into pieces) Now if you two will excuse me I have an element to collect

(Cen heads off to a nearby cliff side overlooking the crater of the currently quiet active volcano. Pulls out the crystal just as a few drops of rain begin to fall the crystal begins to light up.)

Moon:

We can't let her win.

Andromita: (now sitting down with a scowl on her face)

If we move the sniper will shoot us. And with my blaster destroyed I have no chance of getting it before it got me. They have won and this time it's my fault.

Moon:

Stop it Andi. Stop blaming yourself for things you have no control over. Your sister, the elements, your father's death, all of it is not your fault.

Andromita:

Shut up Sailor Moon you have no right to speak about him, his death is on your shoulders as well as the death of everyone else in the Moon Kingdom.

Moon:

Fine, I will carry that blame for you if it means you stop blaming yourself and others I will be the one responsible for the loss of the Moon Kingdom. So if that's what you want then have it. But don't you dare sit there and tell me you will do nothing but sit by as the Negaverse gets their hands on the element. Do you honestly want your sister to take it?

Andromita:

No. But I have nothing.

Moon:

No you have me. I'm still hazy on the memories but I can't help feeling since you reappeared on how close we once were as friends. I want that friendship back but you have to trust me Andi.

Andromita: (stands up)

Trust! Trust you? The traitor of the Moon Kingdom, The one who oversaw its destruction. I should trust you. I hate you almost as much as I hate Cen for her betrayal.

Moon:

Fine if you wont listen then I guess I have no choice but to prove you wrong. (Sailor Moon dashes off after Cen when suddenly explosions launch behind her and she has to push her movements away from Cen)

Andromita: (to self)

What is she doing? She knows that the sniper will shoot at either of us ... (She pauses for a second and figures out her plan) A decoy damn it. Fine then first step is (She looks around and sees a small rocky hill where flashes are firing from.) The sniper. (She dashes off towards the sniper as Sailor Moon continues to draw its fire getting closer to Cen. By now the rain is getting heavier and the crystals light begins to glow brighter as lighting begins to rain down from the skies, below at the mountain base the news van pulls in and the girls are quick to run out but not as quick as Darien who is racing at full force up the mountain himself. He only stops when an explosion hits near him)

Moon:

I told you to stay back Darien!

Darien:

I lost you for a thousand years I am not about to lose you for another.

Circuit:

Warning we are in the firing range of a skilled robotic sniper.

Amy:

Everyone get back to cover.

(A new explosion occurs only this time nearer to the rocky hill where the sniper is placed. The explosion is at Andromita who takes the shot into her arm to not hold her from gaining ground)

Andromita:

This game ends now Cen.

(She leaps in the air and just as the robot is about to fire smashes down on it causing both her and the robot to be at the center of its final explosion.)

Moon:

Andi!

Cen:

Your too late Sailor Moon the element is mine.

Moon:

NO

(Sailor Moon leaps at Cen and tries to throw a punch but is stopped by the energy shield. As Cen grabs the now intensely glowing crystal the wind and rain turn into full on Typhoon force weather.)

Mina:

We have to seek shelter this weather is only going to get worse.

Darien:

Not before I get Serena.

(Darien starts to move but is yanked back by both Lita and Haru.)

Haru:

You must trust in her that she knows what she's doing.

Lita:

Believe in her Darien she will be fine.

Setsuna:

Darien look Renee is your daughter and Sailor Moon's as well if she is here then Sailor Moon survives this right.

Rei:

Come on Darien.

Darien: (giving in but still looking back)

Fine, I don't like it but I do believe in her. (To Self) Come back to me safe Serena.

(Lighting begins to strike the ground around Sailor Moon and Cen.)

Moon:

You shouldn't be doing this Cen give the element to me you can't let the Negaverse win.

Cen:

News flash princess, we have always been winning. Sure you defeated the minions but when it comes down to it no matter how many times you try to stop us we just keep coming back for more stronger then ever.

(Suddenly Andromita leaps down on top of Cen but is blasted back by the energy shield)

Andromita:

Then we will just have to put a stop to it sister.

Cen:

You can't get past my shield Andi. No weapon or attack can harm me and I hold the crystal.

(Andromita Slams the ground with her fist crumbling the ground all three are standing on but not breaking it free from the Cliffside yet)

Andromita:

Let's see how many more this cliff can take shall we.

Cen:

You will kill us all!

Andromita:

Better we all die then let you have the element.

Cen:

Think Again sister Orb emergency escape activate.

(The orb bleeps in acknowledgement and a portal opens)

Andromita:

NO YOU DON'T (Slams her fist again and the cliff side begins to crumble and fall Cen begins to slide with it but lands in the portal which beings to close Sailor Moon leaps up to try and get the crystal but fails to grab it before it vanishes.)

Moon:

No the element

Andromita:

Damn her

(The two look at each other, and Andromita grumbles something under her breath)

Moon:

What was that you said?

Andormita:

Thank you. Thank you for the help there...

(Suddenly a lighting bolt strikes the ground in between them and Sailor Moon is flung off the Cliffside below the others watch)

Darien:

No.

Michiru:

That's an active volcano

Amy, Mina, Lita, Rie, Renee:

Sailor Moon!

(While the others make shouts Andromita is quick on her feet as soon as she grabs her footing she leaps after Sailor Moon who is already out of the view of the others.)

Andromita:

Princess, I won't let you fall. (Andromita tucks her body in to build up speed to Sailor Moon. Soon she is on her but notices that she isn't responding) No not like this. You can't take her. The world needs her. (Tears run down her face) I need her. I need my friend, someone help me save her. (Suddenly a red light envelopes Andromita and Sailor Moon as the storm winds build stronger and stronger as the two fall into a cloud of volcanic fumes they fade in a bright flash. The scene goes dark)

Preview of the Next episode:

Andromita:

Where are we?

Sailor Moon:

I hate to use a corny line but I sure don't think it's Kansas and I know it's not Japan.

Sailor Moon:

A magical light from Andromita rescues us and teleports us to a mysterious place, together Andromita and Sailor Moon must survive a strange trial from a mysterious collection of robed figures. Meanwhile as the storm dies down the rest of the Sailors grieve at what they believe is the loss of their leader while Darien struggles with the loss of his love and his conflicting feelings of Moyria and Andromita. What secrets does the power of the Magi hold and are the issues between the two fully resolved.

Andromita:

Next Time on Sailor Moon: Andromita Factor, The Calm Tempest Part 2.

Sailor Moon:

See You then.
