(The scene opens on a beautiful day in a park with Serena sitting with her head in her hands and Luna sitting next to her.)

Serena:

The nerve of some people. This was meant to be my date with Darien a day of just us in the park but instead these guys had to show.

(The scene pans out with the news van parked near by; Moyria is operating a camera focused on a woman and Taka operating a camera focused on Sayrun interviewing the woman. Serena looks in the van and sees Darien working on the feeds)

Sayrun:

So tell me Ms. Kusabana what is it that draws you to creating such usual designs with the flowers here in the park.

Kusabana:

Oh I am just inspired to spread a living and growing form of art where ever I tread, it's such a great burden.

(Serena yawns)

Luna:

You know you kind of invited your self and declared this a date Serena when Darien told you he would be busy all day working on an interviews of the new garden art exhibit.

Serena:

I don't care I'm not leaving Darien alone with that girl as much as I can.

(Serena points at Moyria who remains focused on the subject of the task at hand)

Luna:

If only you focused this much energy on your school work or regaining your power I'd feel a little more at ease with you right now.

Serena:

Hey I told you Neo Queen Serenity told me I can't transform till I get some new crystal Mage thingy. (Serena reaches in a basket nearby a pulls out a half a sandwich and starts eating away)

Luna:

And did she give you any clues on this crystal?

Serena:

She said an old friend from long ago who I currently disagree with will give it to me.

Luna:

Well you got that crystal from Michiru and Haru could that be it?

Serena:

No clue. My future self said it would be a limited power so I figured save testing it till the enemy attacks.

(Luna stands in shock)

Luna:

You're actually being responsible Serena, are you sure you're over this depression kick you had.

Serena:

(grabbing a second half of a sandwich and eating while she responds) Yeah totally. I have a way to fight now. Its just not come up yet, and I'm totally over Ms. Jerk pants Andormita. (Takes a big bite of the sandwich) Next time I see that girl I'm gonna give her the old Sailor One two.

Luna:

I think you need to get in line both Darien and Haru want rematches with her badly. More so Darien with how you got all depressed last time you fought.

Serena:

(Finishing off the sandwich)

Yeah well that was that cat robot of hers. I thought he would keep her in check for us but then she picked that fight with Haru for this crystal. I have to wonder if she is our ally or working with the Negaverse. (reaches in for another sandwich but notices all of them are gone) Awe all out and I'm still hungry.

Luna:

Your always hungry. Hey where did you get that lunch I don't recall you having it when we left home.

Serena:

Oh it's totally the shoots catering right?

(The two look at the basket and see the name Taka on it as the crew wraps up for a break)

Sayrun:

Thanks for your time. Okay crew lunch break.

Taka:

Man am I hungry.

Sayrun:

So Taka that wife of yours made you a lunch.

Taka:

Yeah we are on a tight budget with the new kid, but she packed my favorite.

(Serena looks shocked at the conversation and begins to walk away when Darien stops her)

Darien:

Sorry for the wait Serena lets go get you something to eat I'm sure you're hungry.

Serena (Embarrassed):

Um ... uh sure hey why don't we all get something to eat huh guys.

(Taka picks up the basket that once housed his lunch)

Taka:

My Lunch it's gone

Darien:

Serena you didn't

Serena:

Hey Taka where do you want to go my treat hehe.

Sayrun:

Darien you need to teach your girlfriend about boundaries of other peoples food.

Taka: (Very sad faced)

Why my lunch.

Serena:

I am so sorry.

Darien:

I'll give you some money for a lunch Taka.

Taka: (Taking some money from him)

Thanks Darien.

Darien:

Well if you're still hungry lets grab some food too huh.

Serena:

Uh yeah okay.

Darien:

Hey Moyria care to join us

Serena:

(To Self) Great so my punishment comes right away touché karma.

Moyria:

Yeah sure. Be there in a bit got to make a call first.

(Moyria walks off away from the group and pulls out her cell phone version of Circuit.)

Moyria:

Find that power spike yet Circuit.

Circuit:

No Mistress. My readings indicate that the power is somewhere in the park, perhaps if you convince the group to walk the park for lunch we might come closer to the spike I felt earlier.

Moyria:

Okay remain in stealth mode. Till then, once you find it signal me in a way.

Circuit:

Yes Mistress.

(Moyria, shoves the phone back in her pocket of her jacket and begins to walk back to the group only to be halted by Sayrun holding the camera with her)

Sayrun:

Here collect some shoots of the exhibits as you all go out to grab some food, okay.

Moyria:

Yes Ms Calvin.

Sayrun:

Drop the formalities; I'm still not happy that you didn't wear any of the outfits we got the other day today. The exhibit is full of eligible rich hunks and I didn't want to play the field all alone girl.

Moyria:

Yeah not really looking for that at this time. (To self) since the first guy had a girl and the second turned out to be Sailor Uranus I don't want to risk my chances of dating Geo himself.

(Moyria grabs the camera and walks off to join Serena and Darien as she catches up to them a dark cloud appears over Serena's head, Sayrun shouts back at them)

Sayrun:

Be back in 2 hours our next interview is set for then. Oh and Moyria don't lose or destroy this one (Moyria joins Serena with the dark cloud over her head)

(The scene changes to Geo's lair a small desk with charts and a laptop, behind the laptop Spectral sits typing away, suddenly Iris fades into view)

Iris:

You find the first element yet or not.

Spectral:

I found those two days ago, I've been holding off finding the best target for this.

(Spectral holds up a dart gun with a small dart filled with a liquid and dark crystal shard)

Iris:

This will create the warrior we need.

Spectral:

I have a limited amount of shards, seven to be precise. Introducing them in this liquid should cause the crystals power be amplified and release its full force moments after impact. Just don't screw up and hit the wrong target. I suggest being as close as you can.

Iris:

So who is the target?

(Spectral turns the laptop around showing the face of the elderly Ms. Kusabana.)

Spectral:

This woman is perfect she is in turn with the element of Nature and will make a great ally in the battle.

Iris:

She's old

Spectral:

She's experienced, and I'm not looking for the best physical traits over the higher connection to the elements.

Iris:

Fine but if this blows up in our faces it's your fault for choosing granny there.

Spectral:

Just see to it you don't abandon this one like the last two should a battle commence.

(Iris grabs the dart gun, and starts to fade)

Iris:

Yeah where ever desk jockey.

(Iris completely fades)

Spectral:

That's right witch keep insulting me, yet my plan is fool proof even with you in charge of things. I won't fail master Geo like you.

(The scene changes to Serena and Darien walking the park while Moyria keeps stopping and filming parts of the Art exhibit)

Serena:

Now is our chance lets ditch her.

Darien:

Serena, what is it about Moyria that causes you to act this way, it's not like you.

Serena:

Hey can I help it if she rubs me the wrong way. I cant put my finger on it but I just cant trust her you know.

Darien:

Well I told you I was working today.

Serena:

Which is why I am here at your side? I am not about to let you two work alone.

Darien:

There are four of us; you would have noticed that if you weren't eating Mr. Taka's lunch.

Serena:

Hey that was like 10 minutes ago you can't hold that against me.

Luna:

No but don't blame us when your scale holds it against you in the morning.

Serena:

Yeah right like you, the dweeb and my brother aren't the ones messing with that on me.

Luna:

I haven't touched it in weeks.

Serena:

Yeah maybe it wouldn't hurt if you tried weighing your self for once, I swear your eating the kibble a lot more these day Luna.

(Darien halts walking yet Serena carries on)

Luna:

You are one to call someone else fat.

Serena:

Hey it's just the truth (Serena noticing she passed Darien turns back) You coming.

Darien:

I just got a weird felling Serena that's all

(Moyria comes running to catch up with the two)

Moyria:

So I miss anything in this romantic drama.

Serena:

Not anything that you should care to butt in about.

Moyria:

Excuse me?

Serena:

Why can't you just leave us to go to lunch alone?

Darien:

Serena? Moyria I'm sorry she really isn't this way at all. I don't know what has gotten into her.

Moyria:

Yeah I get it, I'm just the third wheel today, kind of getting use to it I guess.

(Darien elbows Serena in the side and a face of guilt hits her)

Serena:

Look I'm sorry; I'm just not one for being out in this heat today.

Moyria:

Don't mention it I know what you mean. Who chooses to hold this event on the hottest day yet huh?

Serena:

Um so do you have a boyfriend?

Moyria:

Nah not a one

Serena:

Oh so you swing that way?

(Darien and Luna both get a shocked look on their face)

Moyria:

Swing what way?

(Darien once again pokes Serena in the side with his elbow)

Serena:

Um never mind.

Moyria:

Nah thought I had a guy a few night ago but they had their eye on something else.

Serena:

Yeah you gotta stay away from guys like that. So what brings you to Tokyo anyway Moyria. (Darren gives her a stern look) I mean you are a foreigner.

Moyria:

Just traveling and searching for something, figure I will spend some time here since I have a job, then if I can't find what I'm looking for I will move on.

Serena:

A traveler huh bet you see a lot of new places.

Moyria:

Yeah many that are out of this world.

(Darren eyes a near by food cart with tables)

Darren:

Hey ladies why don't we grab something from there.

Serena:

Sure it okay with you Moyria.

Moyria:

Yeah just let me get a few shoots of the lake from this view before I join you all. (Moyria's pocket begins to shake) And it looks like I got a phone call go on ahead and order I will be there in a minute. (Moyria walks back down the path a bit and pulls out circuit) What do you have for me?

Circuit:

The energy spike, While I didn't get a definitive one a little while ago I felt a spike come from a garden patch you passed three hundred feet ago.

(Moyria walks on down the path to follow the directions Circuit is giving her. While Serena looks on from their place in line)

Serena:

Now where is she going?

Darien:

The call must have been Sayrun asking to shoot something in particular.

Serena:

Yeah must have.

(The scene changes to Moyria walking the path till she reaches a nearly dry and dead patch of earth with a lone pine tree sprouting from it)

Moyria:

This the spot you detected the spike?

Circuit:

Yes Mistress, The readings are weak but this plant is not normal.

Moyria:

Could the Geo have planted it here?

Circuit:

No my readings indicate the plant is several years old since the early days of the Moon Kingdom.

Moyria:

That's not right it's a sapling. Maybe no older than a few weeks.

Circuit:

My sensors don't lie Mistress this tree is old and has some magical force about it.

Moyria:

I will grab a sample for further study then (Moyria leans in to pull off a needle from the tree but finds it slipping from her hands and she falls on her butt with no sample) What the hell.

Circuit:

A force of Strength, I don't believe you can acquire a sample Mistress at this time. We need to find the source of the magic that the sensors are picking up before pursuing further study.

(The scene changes to a small table of people talking to Ms. Kusabana when Iris walks up with her parasol open and sits next to Ms. Kusabana)

Iris:

My why such lovely work you have here.

Kusabana:

Uh thank you its so nice to see young ones like your self enjoying the exhibition.

Iris:

Oh I'm not admiring the Exhibition.

Kusabana:

No then what are you here for my dear.

Iris:

Why you and the Element of Nature

(Iris shoots Kusabana with a dart and the others around start to freak out thinking it's a gun a man leans into see if Ms. Kusabana is okay but he is suddenly thrown back as a vine whips him back, and Kusabana transforms into a monstrous collection of flowers and vines in a large dress and a huge flower for a sun hat)

Iris:

Tsuta, Find the element and destroy any that get in our way.

Tsuta:

Yes my master.

(the crowd lets out screams of panic that is heard through out the park, at both Moyria's location and Darien and Serena's the cries are heard)

Moyria:

Circuit you run the tests and protect the camera I think I have to answer a different call.

Circuit:

Yes Mistress I will do as you ask.

Moyria:

(presses her bracelet) Stardust Illumination Activate. (Moyria transforms into Andromita)

Circuit:

Be careful mistress there are a lot of civilians at this location maintain their safety.

Andromita:

I will try

(Andromita runs towards the fleeing people mean while Darien and Serena have moved to a more quite location)

Darien:

Stay here Serena you can't fight

Serena:

Like hell I have been waiting days to try this out. Moon Royal Crisis Activation (Serena holds the crystal in the air but it does nothing but glimmer in the light.)

Luna:

Looks like that's not the right crystal after all.

Serena:

Awe but I don't want you dealing with it all alone Darien

Darien:

Don't worry you just stay safe. (Darien pulls out a rose and transforms into Tuxedo Mask and runs towards the fleeing crowds.)

Serena:

I will not sit by the side lines on this one Luna.

Luna:

You have no choice Serena with out your powers you have no way of fighting what ever is going on.

(Luna looks up to see Serena has chosen to ignore her words and has followed the steps of Tuxedo Mask towards the danger, The scene changes to Tuxedo Mask running by the camera and phone Andromita left behind at the tree, soon Serena heads to it too but trips and lands face first near the camera and tree.)

Serena:

Stupid rock...(looks up and sees the camera) Seriously she left the camera here (spies the cell phone and this cell phone.) Where did that girl go ... (picking up the camera) hey why did she leave this on and focused on this sapling, I mean it's just a normal little tree. Man that girl is weird (Serena turns off the camera grabbing both it and the cell and heads off to the danger.)

(Andromita is the first to arrive on the scene where Tsuta has several people grappled in its vines, pulling out her blaster she aims and shoots three blasts all freeing people from the monsters grasp, Iris turns to look and sees Andromita)

Iris:

Well lucky me the mousy has come to play. Tsuta find the Element and use this on it (Iris tosses a crystal towards the monster, but Andromita successfully blasts the crystal from the vines grasp.

Andromita:

I don't know what your up to Iris but I'm not about to let it succeed.

(Andromita goes to grab the crystal only to have a rose thrown knocking the crystal away from her grasp, she turns to see Tuxedo mask behind this attack)

Andromita:

Showing your true colors Prince.

Tuxedo Mask:

I don't trust either of you so I'm not about to let you have that crystal ether.

Iris:

Morons the crystal isn't important yet (pulls out a second one and tosses this one at Tsuta who this time catches it and shambles on up the hill towards Serena who now is charging toward the monster.)

Tuxedo Mask:

Damn it (he quickly diverts his attention to rescuing Serena from the monsters charge while Andromita moves in quick to grab the crystal. She grabs it just in time avoiding a slash from Iris's Parasol)

Andromita:

So your actually going to get your hands dirty this time.

Iris:

Dirt no but I don't think Geo would mind buying me a new one should I get it all bloody from your corpse. (She places a second swing but Andromita blocks it with her blaster. Meanwhile Tuxedo Mask quickly scopes in grabbing Serena from the path of Tsuta.)

Tuxedo Mask:

I thought I told you to stay away.

Serena:

No Chance, you may be a dream boat but I'm not letting you handle that thing alone.

Tuxedo Mask:

Sorry but you will have to (Tuxedo mask pulls out a rose and jams it in Serena's uniforms flap to a nearby tree.) Stay here where you will be safe.

Serena:

Totally unfair! When I get my powers back mister we are going to have a long talk about this.

Tuxedo Mask:

I'm fine with that.

(Tuxedo Mask runs off after Tsuta throwing roses one at a time and collecting civilians that it lets go on the way. While Andromita flips to avoid a swipe of Iris's Parasol that launches a gust of wind snapping the rose of the tree freeing Serena.)

Serena:

Seriously watch where you swing that thing.

Andromita:

Get out of here you moron it's dangerous.

(Andromita dodges another attack only to have the crystal fly from her hand. It taps the red crystal on her bracelet and suddenly a burst of light envelopes the area)

Iris:

What is going on with the crystal?

Andromita:

What did you do?

Serena:

Man it's bright.

(The light fades yet the crystal goes flying sparking energy and landing in the lake.)

Andromita:

I will just get it once I kick you ass Iris.

(Serena looks as the crystal lands in the lake and goes running after it)

Luna:

Serena no it's not worth it we need to get to safety

Serena:

I can't take that risk this could be the crystal I need Luna

(Andromita kicks Iris who blocks the attack with her parasol but still falls back from the momentum of the blow)

Iris:

I see playing fair won't get either of us any where.

(Iris opens the parasol and starts to twirl it about and launches a strong gust that causes Andromita to go flying past Serena and into the lake.)

Serena:

Andromita!

(Serena turns her direction from the crystal to save Andromita who goes crashing into the water head first and starts to sink. Serena dives and starts to swim after Andromita who is not conscious. Serena reaches in to grab at her as Andromita's body hits the bottom and her air lets free. Moments later Andromita opens an eye and sees princess Serenity from her childhood over top the images fades to black for her and she returns to unconscious state.)

Luna:

You saved her Serena

Serena:

I couldn't let her drown Luna it's just not right.

Luna:

I think it's amazing you could swim at all to save her and Andromita of all people for you to save.

(Serena over looks the lake and sees Iris float the crystal still sparking for energy, Serena grabs a rock and throws it hitting Iris in the face)

Serena:

Give back that crystal Fashion freak.

Iris:

Well a little weak human thinks she can do what a skilled warrior of the Moon Kingdom couldn't. Don't worry dear I will be sure to take care of you along with that piece of trash you saved there.

(Iris twists her parasol and it releases a blade at the edge, and she comes charging at Serena)

Luna:

Serena run she's out to kill you.

Serena:

No I will not Abandon Andromita, She may be a pain in my side but she is one of us, she is an ally of the Sailors and a friend.

(Iris goes to strike and Serena blocks the swipe with her own body.)

Luna:

(Screaming) Serena

(Light fills the crystal once again as it flies from Iris's hand and blocks the attack the crystal cracks and forms a crystal resembling the one Queen Serenity showed Serena)

Serena:

The Magi-stone

Iris:

What is this power?

Serena:

I will show you fashion Reject. Moon Royal Crisis Activation. (the stone envelopes Serena and transforms her in a outfit similar to her previous ones only this one bears actual armor in places, gone is her gloves replaces with gauntlets wrapped in cloth, Her ribbon connects to the flap in the back, covering the armor plate covering her chest the stomach and skirt still made of cloth yet the boots have a metal plates strapped to the fronts and the Magi stone moves to form the stone now placed in her tiara, just above the crescent moon symbol also adorning it.)

Sailor Moon:

I am the warrior of love and justice, I am the protector of all that is good and the punisher of evil, and few are as evil as you girly, I'm Sailor Moon and in the name of the moon I will punish you.

Iris:

So that brave brat is Sailor Moon huh no problem I will just eliminate both of you and Geo will reward me greatly.

Sailor Moon:

Man it feels so good to finally say that line again.

(Suddenly Sailor moon is hit across the head by Iris's parasol)

Sailor Moon:

Ouch hey watch where you swing that thing

Luna:

Sailor Moon you really should pay attention to the fight.

Iris:

Man I've heard of your stupidity Sailor Moon but I never thought you would just stand there and let me beat on you, this job is going to be too easy.

Luna: (face in a shock at Iris's Statement)

Great her intellect is getting know by the entire Universe

(Sailor Moon kicks Iris and Iris blocks the attack with her parasol. But Sailor Moon then spins the kick causing the parasol to fly out of Iris's hand.)

Sailor Moon:

Oh I'm sorry did I just kick away your favorite toy.

(Iris forms a ball of energy to blast at Sailor Moon, but Sailor Moon dodges it and several others as Iris follows through with a volley of them. When Suddenly Sailor Moon trips and crashes on the ground)

Luna:

All that new power and she still can't keep from tripping in combat.

Iris:

Can't dodge this time Moon twit. (Iris builds a larger energy blasts then before and proceeds to launch it only to be basted away from a blast of Andromita's blaster)

Andromita:

Well looks like I missed quite a lot when I was out. Sailor Moon what happened to the girl that was here.

Sailor Moon:

Andromita your awake, Uh she left when you went in the lake.

Andromita:

Fines then you go handle the monster that went that way I have a little pay back to give Iris here.

Iris:

Mousy wants to go for round two huh.

Andromita:

That's right and now the kid gloves are off. (Andromita dashes suddenly at Iris and swings a punch knocking Iris back in the face.) I want to rearrange that fashionable face of yours. (She cracks her knuckles readying herself for a new attack)

Sailor Moon:

Okay I will leave this to you we have to talk later.

Andromita:

Not going to talk once these guys are taken care of I will be coming after you got it.

Sailor Moon:

Yeah sure.

(Sailor Moon dashes off down the path to face the monster there she finds Tuxedo Mask had freed the last of the people but now is locked in combat with half the creature as the other half moves the crystal gem to the sapling.)

Sailor Moon:

Moon Tiara Action (Sailor Moon sends the Tiara flying and hits the monsters vines cutting it and causing the gem to fall and land near the sapling. She then directs it back and cuts at the vines around Tuxedo Mask loosening them.)

Tuxedo Mask:

Sailor Moon your back.

Sailor Moon:

That's right and its time I did some serious pruning don't you think.

Tsuta:

How about we get to the root of your problem (Tsuta tosses a large collection of vines that have Sailor Moon dodging back and forth narrowly avoiding them all)

Sailor Moon:

Why don't you just shrivel up you weed.

Tuxedo Mask:

Sailor Moon that monster use to be human.

Sailor Moon:

Uh okay but I don't have a way to heal with this form. I think.

Luna:

You think? You said Queen Serenity showed you how to use it.

(Sailor Moon dodges a large vine coming whipping down near her)

Sailor Moon:

I said she told me how to activate the stone not what I could do other than many of my old attacks.

Tuxedo Mask:

Well try to think Sailor Moon she must have said something.

(Both jump out of the way of vine attacks)

Sailor Moon:

Lets see there was the activation and then the normal line up of attacks, wait didn't she say something about, hmm I guess I could try this. (Sailor Moon places her hands on her chest.) Moon Blessed Wishing (Energy builds in her hands and forms a ball of light that flies off and starts to spin around Tsuta.)

Tsuta:

What's with the light show (Tsuta swings at it but it does nothing)

Sailor Moon:

Heal this soul

Tsuta:

What's happening? No I failed master! gahhaaaaa!

(The light moves so rapid its starts to leave trails of light and soon Tsuta is glowing along with it and reverts back to the old woman Kusabana, she coughs and the black shard falls out and dissolves.)

Tuxedo Mask:

Sailor Moon You did it!

Luna:

You sure did!

(Suddenly the ground starts to shake)

Sailor Moon:

Earthquake? (The little sapling bursts from the ground and forms a massive tree that dwarfs the sky line, the crystal is sent up the with the tree and Sailor Moon and Tuxedo Mask dodge its rapid growth) Now that's what I call Miracle grow

Tuxedo Mask:

The Negaverse wanted to plant a tree?

Luna:

This doesn't make sense

(Meanwhile Andromita and Iris continue their fight till the tree forms in the skyline.)

Iris:

Looks like the mission was a success time to collect the gem. (She hops up and glides up in the air with her parasol. Andromita grabs on)

Andromita:

Not this time Iris.

(Iris continues to rise up in the air with Andromita on her leg.)

Iris:

Let go Mousy those shoes are a fortune and your ruining them. (She kicks at Andromita and knocks her off sending her crashing back in the lake.) So long free rider I hope the fall breaks every bone in your body. (Iris flies up and pulls the crystal towards her from the peak of the tree) Well looks like Tsuta was defeated but at least I have the element for Geo and Spectral will have to deal with the blame for his failure this time. (Iris floats off with the gem now glowing a green light about it. Meanwhile Andromita not wanting a repeat of her last fall in the lake. Decides on a using her power to halt her sudden decent.)

Andromita:

Solar Flare (A sudden burst of water gushes up and cushions her decent and sends her instead crashing into a muddy bank) Great just great. Iris gets away with what ever she was doing and I'm covered from head to toe in mud. I think this has been enough crap for today I can get Sailor Moon another time. (Andromita touches the gem on the armband and reverts back to Moyria, all be it a version of her coated in mud. She looks around and sees the camera and Circuit in a different place then she remembers both also coated in mud.)

Moyria:

Great this day just keeps sucking in many ways. Circuit respond

Circuit:

Mistress I am having trouble with visuals

(Moyria wipes the phone clear of its mud coat)

Moyria:

Better?

Circuit:

Yes Mistress... Um I have to tell you I no longer feel the energy at all though.

(Moyria holds up the phone to show Circuit the giant tree)

Moyria:

Don't know what they are up to any readings on that you can give me.

Circuit:

I sense no power from it, it's just a really old tree.

Moyria:

It's a really large old tree.

Circuit:

Maybe the energy was preventing the tree from growing all this time.

Moyria:

Makes sense and when Iris captured it the tree grew all those years at once. (Serena and Darien come running to find Moyria coated in mud) Got to go.

Serena:

What on earth happened to you.

Moyria:

I kind of feel when doing some filming and landed in the mud when the monster attacked.

Serena:

(To Self) Wait I thought I brought the camera and her phone over here?

Darien:

Are you hurt?

Moyria:

Nothing a bath and laundry can't help, but the camera.

(Darien picks it up and wipes it looking at the camera)

Darien:

Your lucky it's just coated in mud, we got some cleaning stuff in the van I suggest using all of it.

Moyria:

Yeah (Stomach rumbles and she suddenly looks embarrassed) so about lunch.

Darien:

We didn't order yet so come on.

(Suddenly Sayrun and Taka come running up)

Sayrun:

Tell me you got that Moyria

Moyria:

Huh

Sayrun:

The battle tell me you got it on video.

Moyria:

(To self) well I left it on so maybe. (Looks at the camera at it's turned off) No why me.

Sayrun:

I can tell by that look that you didn't. Well at least Taka here got some shots of Sailor Moon, the mystery hero and some weird woman fighting.

Moyria:

(To self with a disgusted look on her face) great more exposure

Serena:

(To self with a smile on her face) I'm going to be on TV I got to remember to record the news tonight Rei will be so jealous

Sayrun:

Well let's head back to the van we need to get ready for the next interview and get you cleaned up.

Moyria:

But lunch

Sayrun:

(Pointing at her watch showing the time matching the time agreed on returning) Is over

Moyria and Serena:

Nooo I wanted to eat.

(Darien sighs and places his head in his hands. The scene changes to later in the day with Moyria coming out of the shower, of her apartment while circuit rolls about on the floor moving along it with his back)

Moyria:

This day just sucked horribly. And to make matters worse Sayrun had me work getting more shots after all those interviews, I never even found that gem that went in the lake of Iris's. There is no telling where it went to.

Circuit:

It would have helped to better understand what it is that Geo is after wouldn't it.

Moyria:

Yeah. (sneezes)

Circuit:

Mistress your body temperature is rising, my scans and records would dictate you are coming down with a cold.

Moyria:

Yeah a perfect ending to a perfect day I would say. I just wish I knew what Geo was after.

(The scene changes to Geo's lair with Iris and Spectral prostrated before Geo in his throne)

Geo:

You did well this time Iris. You retrieved the element and stayed with the battle till the warrior was defeated. You even gave held your own against the pests Andromita and Sailor Moon.

Iris: (with a smirk)

Yes my lord I am pleased. I feel we would do much better had Spectral made a better warrior.

Spectral:

I built a perfect monster Iris

Iris:

You built a perfect failure, the mission only succeeded because of me.

Geo:

You both proved your worth today, the monster may have failed but it proved to be useful at distracting them fools long enough. Once the elements are gathered we will have all the power we need to destroy all that stand in our way.

(The scene changes to Serena's home where she lays down on her bed when suddenly a book comes crashing down on her face. Angry Serena pulls the book from her face and goes to stare at Luna only to notice the book was thrown by her mother)

Ikuko:

We had a deal I let you go out on the day off to see Darien you spend the night studying for the next math test.

Serena:

But mom I had a busy day all I want to do is sleep.

Ikuko:

No needs to worry about that according to your teacher Mr. Yamazaki you've been getting plenty of sleep in his class.

Serena: (Smiles in a nervous way)

Yeah he told you that.

Ikuko:

Yeah right along with telling me your close to flunking out of most of your classes. Your weeks away from Summer break of your second year of High school when will you grow up and take responsibility in some way.

Serena:

(To self) Thanks mom as if being a hero set to be the Queen of the Universe aren't enough pressure.

Ikuko:

Oh and when you finish the studying of math you can have a break for dinner, but first cell phone.

Serena:

MOM it's not fair.

Ikuko:

Yeah that's right I'm an evil over lord. Study!

(Ikuko closes the door and Serena groans opening the book, as Luna pops up on the desk)

Luna:

You really did well today Serena.

Serena:

Thanks Luna.

Luna:

Now let's continue that success by solving the first page of problems

Serena:

Aw not you too. (sticks her tongue out at Luna) Meanie

Luna:

Yeah that's showing your growing up a lot Serena...Sigh.

(The scene changes to a vision of the Past, where Princess Serena and a young Andromita are playing along with each other out near a lake around the castle)

Young Andromita:

Is it safe?

Princess Serena:

(floating in a inner tube) Of course its fun the water feels fine. Come on Andi jump in. (Andromita jumps in and instantly starts struggling in the water choking for air.) Andi what's the matter.

Young Andromita:

Cant.... Cough .... Swim ...cough

Princess Serena:

I can't swim, (screaming) Andi, some body help.

(Suddenly a figure comes running in with short blond hair a green uniform similar to Young Andromita's, she dives in the water and grabs Andromita pulling her to the side)

Young Girl:

Seriously you moron why did you jump in if you can swim.

Young Andromita:

I wanted to play with Serena, Cen I thought it wasn't that deep and I could handle it.

(Cen bashes Andromita in the back of her head)

Cen:

Mom and dad would kill me if you died in four feet of water because you're an idiot. Whether the princess asked you or not if you can't swim stay in the water you can stand in.

Princess Serena: (upset)

I'm sorry Andi for getting you in trouble.

Young Andromita: (Smiles at Serena)

Not a problem I live for danger princess.

(Andromita is hit again in the back of the head by Cen.)

Both Young Andromita and Princess Serena:

Cen your just a big meany.

Cen:

Yeah whatever you two, I wouldn't be here if it wasn't because of you two landing in trouble all the time.

Princess Serena:

Andi your sister is a meany. I'm glad I don't have one.

Young Andromita:

Don't worry Serena she's not really my sister, because she's adopted. That means she was born mean.

(Cen gets out of the water and walks off)

Cen:

I can tell when I'm not wanted. Drown for all I care.

(Suddenly Moyria wakes from a sleep, in a cold sweat)

Moyria:

Why did I dream of Cen all of a sudden, was that cause I was drowning in the lake today. (She turns to look out the window of her apartment at the lights of the city) Where did we turn from each other?

(The scene raises to the night sky as a shooting star moves by, and goes black)

Preview of the Next Episode:

Serena:

This presentation is soo boring Ami.

Amy:

We are here to see what colleges have to offer, and this one is a world leader on Fusion energy development.

Serena:

Fusion like in that one anime. Wicked cool I didn't know they study that.

Andromita:

When on a trip to check out colleges the girls come face to face with Iris and the next element. While trouble builds on the inside of the college Tuxedo Mask and I find we have to use team work to get inside. Before disaster of this element leaves most of Tokyo wiped off the planet.

Sailor Moon:

Next Time - Shocking Battle... Element of the sky.

Sailor Moon Says:

Ami:

Parks are a great place to enjoy if you're young or old.

Mina:

Many parks have places to gather as friends and enjoy nature.

Lita:

But we need to keep Nature as it is by keeping our parks clean.

Rei:

When going to the park its important to clean up after you're self and your pets.

Serena:

Parks are for us all to enjoy. Sailor Moon Sez.
