Computer: Does not compute ask another question

Curcit: but you said you could answer any question

Computer: does not Compute, Does Not Compute, DOES NOT COMPUTE

(the computer starts to break up and sparks start shooting out from the screen Curcit notices that a disk slips out from the hard drive)

Curcit: query what does that disk have on it I wonder

Mirror Warthe: Get away from that disk you scrape metal reject

(a laserblast hits Curcit out of the way)

Mirror Warthe: At last the weapon is ours Soon the scouts will be destroyed and the Negaverse will rule the world

Sailor Moon: Not if we can help it, Im Sailor Moon and in the name of the moon I will punish you

Mirror Warthe: In your dreams Sailor Wimp

Andromita: I have you now Sailor Moon, this ones for my father.

(A rose knocks the gun out of her hand sending Andromita's view toward the one who tossed the rose Tuxedo Mask)

Tuxedo: I can't let your quest for vengeance continue

Andromita: I remember seeing you at the warehouse, But why do you protect her.

Tuxedo: Mask it is part of my destiny to defend the scouts and to protect Sailor Moon from people like you

Andromita: I see that I must destroy you to get to her very well prepare to die "light prism blast"

(the burst of light sends tuxedo covering his eyes with his cape at the same time he releases a massive display of

roses at where Andromita was standing but when the light clears she is gone)

Andromita: Fool I know that you are the human Prince Darien my computer told me of you a pity we have never met until now feel lucky that Im going easy on you “ Laser stun “

(The blast hits Darien dead on and knocks him unconscious)

Andromita: maybe next time we meet you will be more of a challenge. Now on to bussiness. I’m gonna get you this time Sailor Moon

(as she aims her weapon down upon her victim her eyes squint as she pulls back on the trigger and a beam of light heads toward its target only to bounce off the Mirror Warthe unknown to Andromita that what she thought was Sailor Moon was acutely her reflection on Mirror Wrath’s glass skin. the laser blast the she shot reflected off the monster and on the ceiling of the Expo right under Andromita’s feet. Sending her to an unconscious fall to the ground.)

S. Moon: What the heck was that all about.

(Sailor Moon then notices that in the rubble is Andromita uncoils)

S. Moon: OH just great first this Negaverse monster shows up and now the person that wants to kill me shows up and I still haven’t found a single video game that I want

Luna: Well I think that she wont bother us will shes out cold

S. Mercury: Maybe we should take her somewhere else

Curcit: mistress what has happened

Mirror Warthe: Just the diversion I needed to escape. We will meet again sailor scouts.

S. Moon: Huh she got away. (starts cring) But I had her trapped.

Luna: I d be more worried about what was on that disk they stole

Curcit: You are Guardian Luna of the Moon Princess are you not.

Luna: Yes tell me Curcit why does your mistress want to kill Sailor Moon?

Curcit: According to databanks it dates back to the last mission of the Space ship StarDust Andromita’s father and Andromita herself where sent to fight and capture the Negaverse warrior Geo. Queen Beryl’s greatest hence man from a distant planet of the Negaverse. The mission ended up as a trap once Geo was captured the Negaverse attacked the Moon Kingdom. As you already know the Sliver imperium Crystal seal the Negaverse and saved the lives of the Moon kingdom’s people in crystal orbs. Unfortunantly my mistress was in the middle of a battle with Geo and her father. Geo struck her father down and all she could do is watch as the monster

Geo killed her father because of the crystal orb.

S. Mercury: That still does not answer why she wants to kill Sailor Moon.

Curcit: because only the queen or princess can use the crystal she determined that the one of the two left living was the one that kept her from saving her father.

Andromita: (waking up) FatherYouTraitor

Curcit : mistress clam down They are on our side

Andromita: (she reaches for her weapon but sees it is greatly damaged) Your lucky this time Sailor Moon but next time you will die

(Andromita leaves and moments later Darien, Moyria, and Sayrun walk in)

Sayrun: This is Sayrun Calvin with a TV16 special report.....

(meanwhile at the base of the Negaverse)

Geo: you have brought the disk

Mirror Warthe: yes my lord

Geo: good lets have a look at the weapon and strategic maneuvers

(A holographic image shows a the designs of a small mech. robot the first of its kind)

Iris: a truly unique weapon of its kind sire

Geo: yes now lets see the Maneuvers

Iris: Yes sire

(the holographic screen goes blank with a little wait symbol up)

Geo: If this is what I think it is we will rule the world in no time

(The image pops up)

HoloComputer: Remember if your in a legal problem just give us a call at Pinker and Bowden Attorneys at Law
.....

(All Three face Fault THE END)

Sailor Moon Sez: You should never judge people or things by what they appear on the outside but instead learned to find whats on the inside

Luna: Like you judge your homework is to hard
