Sayrun: Trust me girlfriend, I've seen the way you look at Darien.

Moyria: We are just friends.

Sayrun: Most friends don't eat out every night or disappear together at work.

(Moyria blushes as well as Darien who has been sitting at the other end of the counter over hearing the conversation. Darien tries to quickly change the subject)

Darien: Moyria are you set for the party tonight that Masion is having.

Is your vengeance worth the destruction of a whole world. Is there no one that you care for in you heart or if you lost that when Geo killed you father.

(Andromita remains silent and walks over to her gun she picks it up and Tuxedo Mask prepares to fight her again, but instead Andromita stands still)

Andromita: You know nothing of what that monster did to my father (turns quickly and charges and fires rapidly at Drillmaster and Iris hitting Iris in his shoulder but shooting Drillmaster over six times in the chest blasting him to dust.
