Garrett: Wow what happened that she is being escorted home

Miriam: Hmm I don't like the look of this Garrett Maybe we should investigate

Garrett: Hey maybe Harten can help hes got the whole place wired with cameras

Miriam: Its worth a try

(the two walk down the hall to Harten's Door and knock soon Harten opens the door)

Harten: Oh hello Miriam, Garrett how can I help you

Garrett: This may sound like a strange request Harten but do you have a camera set up in Moyria's Apartment

Harten: Uh Why do you ask?

Miriam: Well she was just escorted to her door by Police officers and we wanted to know what was going on

Harten: Well as a mater of a fact I do have a camera in thereTo record the uh.....Stars outside her window theirs less light from down town that way plus its anunobstructed view

(Garrett looks at a screen mark with Moyria's room number)

Garrett: Don't you mean an unobstructive view of Moyria's bathroom

Harten: Oh whoops wrong camera

Garrett: Sure

(Harten Flicks a switch and a view of Moyria's living room appears with the officers packing her suitcase for her Moyria is in a corner opening a window to let Curcit leave on his own we switch to inside the room)

Officer 1: As soon as your packed we will be on our way understand

Moyria: Yes sir

(Curcit appears to be hiding behind Moyria as she makes her way to the window)

Curcit: Mistress what is going on

Moyria: (whispering to Curcit) Ill tell you later but its probably best you go stay with the scouts until I return for you. You must tell Sailor Moon to be careful and thats shes on her own for a little while now go while they aren't looking.

(Curcit hops out the window landing on the ground below as Moyria closes the window to the apartment the officers grab the suitcases and Moyria and leave. Back in Hartens apartment Miriam, Garrett and Harten all hold puzzled looks on their faces as they watch the officers escort Moyria out the apartment. Meanwhile Lita, Amy, and Rei have join Mina and Serena as they sit down for some shakes together in a small dinner)

Rei: So it was an old man

Mina: Yeah he just came up and grab us like we where some kind of stuffed animal

Lita: So some guy finally showed interest in you so

Mina: Hey

Lita: Im just joking with you Mina

Serena: It was just all to weird for me

Amy: You said he was wearing a mask and caring a bag of women's underwear behind him sounds like that thief the police have been after for years but who can blame them that they have yet to catch him with all the problems the Negaverse causes not to mention all the other problems that every city has.

(just then a loud argument catches the scouts attention)

Woman 1: Let go of him right now

Woman: Oh you would just love me to wouldn't you princess

Young Man: Calm down you two.

young girl: Ayeka , Ryoko stop it

Woman 3: Every where we go those two always act the same isn't that right Tenchi

Tenchi: And what make you think your any different Washu

Washu: Well for one I dont spend my time arguing, I actually get stuff done and of course being the greatest mind in the whole Universe helps a little

Tenchi: Oh yea how could we forget

Ryoko: Well I for one am board. Say Tenchi why don't you and I go look for some excitement

Tenchi: Uh no thanks Ryoko

Ayeka: There you go again trying to clam Tenchi for yourself

Ryoko: Oh like you wouldn't want him whats the matter jealous

Ayeka: No not at all

(back at the booth where the five heroes have been listening to the argument)

Lita: Hey those two sound allot like Serena and Rei

Serena and Rei: We do not

Mina: Now that you think of it they do don't they

Serena: Theres no way I sound like them, Rei Maybe but not me

Rei: Excuse me

Serena: Theres no excuse for you

Rei: Oh Tough words for someone who is scared of the dentist

Serena: Hey who told you that Moyria

Rei: No Luna

Serena: Figures she is constantly stabbing me in the back with her own claws

Lita: yeah they definitely sound alike

Serena: We do not

Ryoko and Rei: You can be so stubborn sometimes

Serena and Ayeka: Oh Ill show you

(Meanwhile a few blocks away people watch as shadow falls down on the streets and drops over a hundred monsters and one massive machine of metal with Geo operating from its cockpit)

People: Run for you lives the aliens are invading

Geo: Attack my loyal Monsters destroy this miserable city HAHAHAAHHAHA

(meanwhile Moyria sits quietly watching the road pass by her years of training from Raydon told her that they simply where going in circles to lose any body following and to make her lose her own sense of direction)

Kenny: Im sorry that we have to take you away Moyria but its for your own good The Yamato Clan is a powerful group and they won't stop till they get you

Moyria: Why is it they are after me Kenny

Kenny: Im not completely sure but like many of the clans in Japan the Yamato has a legendary history to it they say that thousands of years ago their founder Ganor was a powerful and wise Wizard he used his magic to protect his clan from its rivals but is son Yama betray the clan by falling in love with a young female not of their clan. Her name was Sukana a very powerful warrior who traveled all over the orient to fight Demons, Monsters and Oni. She carried great speed and strength with her. But when Ganor learned of his sons love for Sukana he banished her to the winds of time to only reappear when the to fight the monsters and Demons that threaten this world. Thats all I know of why they might be after you.

Moyria: But it makes no sense why should I go in to hiding because of some tale that has nothing to do with me

Kenny: We are hiding you because we want to see for your safety I have no idea on how you fit in to their so called legend but Some how you do Until then you will be under the protection of a good friend of mine an you will be joining another in his protection

Moyria: I can protect myself

Kenny: Maybe against one or two yes but theres no way you can deal with all of the Yamato clan

(the car comes to a screeching halt as Monsters surround the vehicle Moyria looks at the problem with disgust as she has no chance to escape to transform)

Kenny: Monsters but where did they come from

Moyria: (to self) Geo if I get out of this your history

Kenny: Don't just sit there you idiots shoot them

Officer 1: Yes sir

(The two officers shoot at the monsters but seam to do little damage toward them)

Kenny: This Doesn't look good

(Meanwhile Serena and the others have already taken notice as people flee down the road away from the monsters)

Serena: Looks like we have our work cut out for us

Lita: You got that

Amy: ready every one

Mina: Ready

Rei: Lets teach Geo a lessonMars Power Transform

Amy: Mercury Power Transform

Lita: Jupiter Power Transform

(We watch as the five young girl change into the super heroes know as the Sailor Scouts)

Sailor Moon: Let go Sailor Scouts

Sailor Venus: Um Sailor Moon

Sailor Moon: What is it Venus

Sailor Venus: How exactly do you think we beat that?

Sailor Moon: Huh (she turns around and see Geo riding ontop of a mountain of metal and weapons) We're dead meat

Sailor Jupiter: You know it

Voice: Hold it right there Geo

Sailor Moon: Tuxedo Mask !!?

Tuxedo Mask: Sailor Moon If we take out Geo the machine will be useless

Sailor Moon: But how can we do that with all these monsters

Tuxedo Mask: Beats me

Sailor Mercury: We will take of the monsters Sailor Moon you try to hold Geo off until Andromita gets here

Voice: Shes not coming Mercury

Sailor Mars: Curcit Why isn't she coming

Curcit: Because she was taken by the police

Sailor Moon: She was arrested

Curcit: Im not quiet sure but what ever you do you are on your own in this fight Sailor Scouts you must search for your strength to defeat them

Sailor Jupiter: Search for our strength what I wouldn't give for a good weapon right now

Curcit: Exactly

Sailor Jupiter: huh your making no sense Curcit

Curcit: The power of your wrist bands can take many forms from each of the attacks you have used in the past to a weapon that is unique for each of you It symbolizes you planet it self

Sailor Jupiter: Well Jupiter is the biggest planet and the most powerful in strength, but what is similar to them bothI know I command the Thunder and lighting it has to be a hammer like that of the tales of Thor (magic a hammer appears in Jupiter's hand) Wow

Sailor Venus: Venus is a world that resembles that of love as well as my powers in Mythology love is often shown with cupid and his bow and arrow (A bow appears in one hand and a arrow in the other)

Sailor Mars: Mars is a place of mystery and war its power burns hot as a red light in the night sky it burns like the sting of a whip (a whip appears in the hands of Mars)

Sailor Mercury: Mercury is the smallest but toughest as it must face the constant heat of the sun, It is said to be quick and I control the element of water and ice for Course it would be a quick dagger (Two daggers appear in the hands of Mercury)

Curcit: These weapons carry magical abilities to them but they will be helpful to us now as they are right now

Sailor Moon: Hey what about me

Curcit: Well as Luna told you the staff holds many powers to it you must find what they are no let quite talking and get to action

(the scouts dash off attacking and defeating monsters left and right Sailor Moon stops when she sees that the Sailor Scouts aren't the only ones fighting she watches two girls around her age also fighting one caring a sword looks much like her the main similarity is her hair is braided in to two loops on the top of her head next to the two girls is an elderly lady caring some kind of chain whip)

Old Lady: Yohko You are pathetic When I was your age I would have killed that last monster in half the time

Yohko: oh give it a rest Grandma

Girl: Ms Yohko Ms. Yohko

Yohko: What is it Azusa

Azusa: Just where did these Monsters come from

Yohko: beats me Grandma do you know

Grandma: Hmm let me see

Yohko: Well ?

Grandma: I have no idea

Yohko: Figures

(As Sailor Moon Watches she fails to notice that Geo has come up right behind her)

Geo: At last I will avenge the death of our glorious Queen Beryl

Sailor Moon: Huh AHAHHAHHA

(As Sailor Moon screams Tuxedo Mask comes down in front of her with his cane out there is a moment of quiet as two limbs of the Mecha fall to the ground from Tuxedo Masks attack)

Tuxedo Mask: You ok Sailor Moon

(Sailor Moon Responds with a quick nod of her head meanwhile Kenny and Moyria are on the run from the monsters)

Kenny: This way

Moyria : Where are we going

Kenny: to a government installation nearby

(aloud explosion is heard as we see two women shooting at the monsters one has a revolver the other a bazooka, There is also a strange man leaping about slicing at the monsters with two blades that come out of his own arms in the distance there are five others standing outside a building Mark TAC)

Kenny: There now all we hafta do is get passed these monsters

Man: Hey just what do you two think your doing this is no place for people

Kenny: Im Officer Ceneda of the Tokyo police and this is the woman we need the TAC to watch over

Man: Great just what they need another worthless weakling

Moyria: Ill show you weak

(Moyria grabs a Monster and slams it into the ground using it to send her in the air where she kicks another two)

Man: I take it back

Woman: Hey Kushi-baby Whats going on up there

Kusanagi: Nothing you gun caring psychopath

(Man from the group yells to the two women)

Man: Koume, Ryoko stop firing you might hit one of the two people down there

Koume: Rats just as I start to have some fun someone has to come along and ruin it

(meanwhile Sailor Moon has been watching as Tuxedo mask has been slicing the mecha up while Geo looks extremely upset as Centurous is no where nere the area)

Geo: How can this be neither Andromita or centurous is around where is that Bounty hunter gone to at this rate the machine wouldn't last another three minutes

Sailor Moon: Wrong it wouldn't last another minute "Lunar Laser Strike"

(A massive spray of lasers fly in the air hitting a bunch of monsters stunning them and causing what remained of the Mecha to fall apart)

Geo: No my beautiful Machine is been destroyed

Sailor Moon: And now for you "Lunar Laser....."

(Before she can finish the staff is knocked away by rod thrown by the same capped figure she saw at the junkyard)

Sailor Moon: Who are you

Tuxedo Mask: He Through that rod at Sailor Moon on purpose

Sailor Moon: But I thought Artemis and Venus said that he was on our side

(the figure disappears)

Geo: HAHAHAHA I have you now Sailor Moon

Tuxedo Mask Oh shut up

(Tuxedo Mask tosses a rose as it spins its petals turn into little dirks all aimed at Geo dead on but in a Flash Geo dodges)

Geo: I can see your better than I thought but our fight isn't over just yet Sailor Moon not by a long shot

(Geo Vanishes along with the remaining monsters)

Sailor Moon: We did it

Tuxedo Mask: Yes we did

Sailor Moon: And without Andromita's help

(with the mention of her Tuxedo Mask looks at little depressed)

Sailor Moon: Tuxedo Mask what is it

Tuxedo Mask: I don't know but I can't help but think of what danger Andromita is in

Sailor Moon: She will survive I can feel it

(Meanwhile at the Base of the TAC the monsters maybe gone but now all eyes are on the sky as Centurous's space ship appears above a beam of light is let loose and Kenny and Moyria split up as the blast of the ships laser hits the ground with a powerful blast)

Kenny: Moyria?!?

Koume: Hey I got to get me one of those

Kunikda: What the heck is it after

Andromita: All right Centurous Thats it you want me you got me

Momiji: Huh who is she.

(A opening from the ship lets out a light as Centurous comes leaping out with a wave of fire in front of her)

Andromita: I don't think so Centurous

(Andromita fires a shot at the fire wave then rolls out of its path her shot goes through the flames and hits Centurous sending her flying back up into her ship and with another shot Andromita hits the ships laser knocking it useless, Centurous responds to Andromita through the ships speaker)

Centurous: I see you have gotten better since our last fight dear sister

Andromita: We are longer family Centurous remember

Centurous: One day I will beat you and when that day come I will be more than happy to be the one to bury your bones in the darkness of a blackhole

Andromita: Im sure you would
